faith Pursue your hobbies Plan incredible vacations Find the perfect restaurant And more much more *The Nicest Kids in Town* Matthew F. Delmont, 2012-02-22 American Bandstand one of the most popular television shows ever broadcast from Philadelphia in the late fifties a time when that city had become a battleground for civil rights Counter to host Dick Clark's claims that he integrated American Bandstand this book reveals how the first national television program directed at teens discriminated against black youth during its early years and how black teens and civil rights advocates protested this discrimination Matthew F Delmont brings together major themes in American history civil rights rock and roll television and the emergence of a youth culture as he tells how white families around American Bandstand's studio mobilized to maintain all white neighborhoods and how local school officials reinforced segregation long after Brown vs Board of Education The Nicest Kids in Town powerfully illustrates how national issues and history have their roots in local situations and how nostalgic representations of the past like the musical film Hairspray based on the American Bandstand era can work as impediments to progress in the present **Armed with Abundance** Meredith H. Lair, 2011-11-28 Popular representations of the Vietnam War tend to emphasize violence deprivation and trauma By contrast in Armed with Abundance Meredith Lair focuses on the noncombat experiences of U S soldiers in Vietnam redrawing the landscape of the war so that swimming pools ice cream visits from celebrities and other comforts share the frame with combat To address a tenuous morale situation military authorities Lair reveals wielded abundance to insulate soldiers and by extension the American public from boredom and deprivation making the project of war perhaps easier and certainly more palatable The result was dozens of overbuilt bases in South Vietnam that grew more elaborate as the war dragged on Relying on memoirs military documents and G I newspapers Lair finds that consumption and satiety rather than privation and sacrifice defined most soldiers Vietnam deployments Abundance quarantined the U S occupation force from the impoverished people it ostensibly had come to liberate undermining efforts to win Vietnamese hearts and minds and burdening veterans with disappointment that their wartime service did not measure up to public expectations With an epilogue that finds a similar paradigm at work in Iraq Armed with Abundance offers a unique and provocative perspective on modern American warfare Media Promotion & Marketing for Broadcasting, Cable & the Internet Susan Tyler Eastman, Douglas A. international promotion and marketing and online marketing and promotion **From Networks to Netflix** Derek Johnson, 2022-07-26 Now in a second edition this textbook surveys the channels platforms and programming through which television distribution operates with a diverse selection of contributors providing thorough explorations of global media industries in flux Even as legacy media industries experience significant disruption in the face of streaming and online delivery the power of the television channel persists Far from disappearing television channels have multiplied and adapted to meet the needs of old and new industry players alike Television viewers now navigate complex choices among broadcast cable and streaming services across a host of different devices From Networks to Netflix guides students instructors and scholars through that complex and transformed channel landscape to reveal how these industry changes unfold and why they matter This second edition features new players like Disney HBO Max Crunchyroll Hotstar and more increasing attention to TV services across the world An ideal resource for students and scholars of media criticism media theory and media industries this book continues to offer a concrete tangible way to grasp the foundations of television and television studies even as they continue to be rewritten *Encyclopedia of Television* Horace Newcomb, 2014-02-03 The Encyclopedia of Television second edition is the first major reference work to provide description history analysis and information on more than 1100 subjects related to television in its international context For a full list of entries contributors and more visit the Encyclopedia of Television 2nd edition website **Fact and Fancy in Television Regulation** Harvey J. Levin, 1980-07-18 How diverse can and should TV programming be And especially in what precise ways does governmental regulation of TV affect or fail to affect the programs station owners produce programs which in the final analysis shape in such large measure the values of Americans It is to these timely and beguiling questions that Harvey Levin addresses his dispassionate assessment of the complex relationship between government and the TV industry Analyzing data drawn from the history of the FCC's regulatory decisions as well as from interviews with numerous government and industry officials Professor Levin shows how the present form of restrictive governmental regulation almost always results in higher profits and rents for TV stations with no concomitant increase in programming diversity In addition Professor Levin investigates various other aspects of the media market from the particular kinds of crucial decisions that are made when for example a newspaper owns a TV station to the kinds of problems that arise when commercial rents are taxed to fund public TV from the brand of programming we are offered when a monopoly controls a given TV market to the nature of programming in a situation of steady and fair competition Following a comprehensive assessment the author makes a compelling case for diversification of station ownership in order to be safe rather than sorry He also argues for the entry of new stations more extensive support of public TV and some form of quantitative program requirements all of which will help bring about greater program diversity Professor Levin's volume provides us with a fully documented and sharply focused analysis of the theories policies and problems of one of the most powerful and misunderstood of contemporary institutions *Media and Culture* Richard

Campbell, Christopher R. Martin, Bettina Fabos, 2011-02-23 It's no secret today's media landscape is evolving at a fast and furious pace and students are experiencing these developments firsthand. While students are familiar with and may be using the latest products and newest formats, they may not understand how the media has evolved to this point or what all these changes mean. This is where *Media and Culture* steps in. The eighth edition pulls back the curtain and shows students how the media really works, giving students the deeper insight and context they need to become informed media critics.
