Mortensen, 2019-10-29 Research on home visiting shows that Early Head Start EHS home based programs benefit from additional training and resources that streamline philosophy and content In this essential guide Walsh and Mortensen propose that alignment with Family Life

Education's FLE strengths based methodology results in greater consistency through a model of prevention education and collaboration with families. This text is the first to outline linkages between FLE and EHS home visiting. It explores a qualitative study of FLE integrated in a current EHS home based program and application of FLE methodology to home visiting topics. This approach will influence professional practice and provide a foundation for developing evidence based home visiting practices. Online content accompanies the text with videos demonstrating the FLE approach in action and discussion questions to encourage engagement with and understanding of the core material. Transforming Early Head Start Home Visiting: A Family Life Education Approach is essential reading for upper level undergraduate and masters students in family studies and early childhood education as well as practitioners working with children and families.

Big Ideas in Education

Dr Russell Grigg, 2016-06-02. Big Ideas in Education: What Every Teacher Should Know by Dr Russell Grigg provides an accessible and easily understood introductory guide to the big ideas that really matter in education. The teaching profession is saturated with ideas. Unfortunately some of these are half baked or fundamentally flawed. Dr Russell Grigg moves beyond the unhelpful supposed dichotomies that pervade current educational thinking: child centred versus teacher centred, traditional versus progressive. Throughout the book readers are invited to question assumptions and popular rhetoric and reflect on their own experiences. Big Ideas in Education aims to equip teachers with a good understanding of current thinking in a diverse fluid and dynamic field. Each of the big ideas is discussed within the framework of four questions: what is the big idea, who is behind it, why is it important and what can you do. Big ideas are important, distinctive, empowering, adaptable and simple to understand. Dr Russell Grigg provides readers with a concise and reliable introduction to twelve such ideas which are at the core of educational practice. The ideas chosen are general rather than subject specific in nature. In turn they invite the reader to look at teaching in wider society, address elements of learning which teachers actively promote, raise questions about why, how and what to teach, and finally look at ways of improving the quality of education. The twelve big ideas under discussion are:

- 1 Education: education goes beyond the school gates and is a lifelong experience.
- 2 Childhood: children need time and space to explore, enjoy learning and develop as children rather than miniature adults.
- 3 Knowledge: knowledge is the foundation for learning.
- 4 Skills: learners need to develop a broad range of skills in real life relevant contexts.
- 5 Dispositions: effective learning depends upon cultivating positive dispositions.
- 6 Ethics: teachers' conduct should be guided by a moral purpose.
- 7 Instruction: direct instruction is a tried and tested means of effective teaching.
- 8 Curriculum: the curriculum is all the learning and assessment activities in school, both planned and unintentional, that contribute to agreed educational goals.
- 9 Feedback: providing personalised, accurate, specific and timely feedback is one of the keys to improving learning.
- 10 Reflective practice: good teachers critically analyse their practice with a view to improving what they do.
- 11 Research: research has a central role to play in the professional development of teachers.
- 12 Professional leadership: effective school leadership operates at all levels and is about shared vision, support and securing improvement.
