

MARK SCHEME for the May/June 2014 series

0610 BIOLOGY

0610/61

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the May/June 2014 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

"E-methodology" 2014 (1) Luba Jakubowska, 2014-09-20 *Triangular Diplomacy among the United States, the*

European Union, and the Russian Federation Vicki L. Birchfield, Alasdair R. Young, 2017-09-15 This book examines the crisis in Ukraine through the lens of triangular diplomacy which focuses on the multiple interactions among the European Union the United States and Russia It is explicitly comparative considering how the US and EU responded to ostensibly the same crisis It also adopts a 360 degree perspective focusing on how the US and EU interacted in their dealings with Russia and how Russia and Ukraine have responded Chapters focus on each of the four protagonists the EU the US Russia and Ukraine and on key cross cutting aspects of the crisis sanctions international law and energy The book thus contrasts a conventional if exceptional great power the US with a very non traditional foreign policy actor the EU It would be suitable for both undergraduate and graduate courses on the EU s external policies and engagement in world affairs EU US relations EU Russia interactions or regional security issues

New Answers to Old Questions Aaron Connelly, Shona Loong, 2024-06-26 Outside Myanmar the 2021 coup d tat has often been portrayed as the end of a hopeful period for the country In this Adelphi book however Aaron Connelly and Shona Loong argue that the Aung San Suu Kyi government that preceded it was a false dawn unlikely to fulfil the international community s aspirations for a stable peaceful and strong Myanmar Instead the movement opposing the 2021 coup holds much greater promise despite the bloody conflict that dominates the news today Connelly and Loong survey three fundamental relationships that have shaped Myanmar before and after the coup between the military and the state between the majority Burmese and ethnic minorities and between Myanmar and the world to explain how opposition to the coup has shifted all of them in a more liberal pluralist and cosmopolitan direction 2017 Report to Congress of the U.S.-China Economic and Security Review Commission, November 2017, 115-1, 2018

The Athaan in the Bull City: Building Durham's Islamic Community Nazeeh Z. Abdul-Hakeem, 2015-08-18 The Athaan in the Bull City Building Durham s Islamic Community tells the little known story of the growth of the Islamic community in Durham North Carolina Drawing upon his own knowledge of the founding and development of Jamaat Ibad Ar Rahman Inc Nazeeh Z Abdul Hakeem the organization s principal founder draws together personal recollections and the details of Durham s major Islamic organization to tell about Durham s burgeoning Islamic community Reaching back across the community s history of more than thirty years The Athaan in the Bull City recounts how Islam s foundations in Durham rest upon the lives of Black American Muslims With the passing of years the community has grown and has changed as arriving immigrants Muslims from around the world have given the community a decidedly international perspective and outlook

The Politics of Immigration (2nd Edition) David Wilson,Jane Guskin,2017-05-22 A straightforward discussion of the issues surrounding immigration U S immigration has been the subject of furious debates for decades On one side politicians and the media talk about aliens and criminals with calls to deport them all On the other side some advocates idealize immigrants and gloss over problems associated with immigration Dialogue becomes possible when we dig deeper and ask tough questions Why are people in other countries leaving their homes and coming here What does it mean to be illegal How do immigration raids prisons and border walls impact communities Who suffers and who profits from our current system and what would happen if we transformed it The Politics of Immigration Questions and Answers goes beyond soundbites to tackle these concerns in straightforward language

and an accessible question and answer format First published in 2007 this updated and expanded edition is an effective tool to confront current stereotypes and disinformation Those who believe immigrants take jobs from citizens don't pay taxes strain public services and threaten the dominant culture will find their assumptions challenged with compelling arguments and hard data Ideal for classroom use The Politics of Immigration provides those who are undecided about immigration with the facts and clear reasoning they need to develop an informed opinion

I'm Buffy and You're History Patricia Pender, 2016-06-28 Buffy the Vampire Slayer gave contemporary TV viewers an exhilarating alternative to the tired cultural trope of a hapless attractive blonde woman victimized by a murderous male villain With its strong capable heroine witty dialogue and a creator Joss Whedon who identifies himself as a feminist the cult show became one of the most widely analysed texts in contemporary popular culture The last episode broadcast in 2002 did not herald the passing of a fleeting phenomenon Buffy is a media presence still active on DVD and the internet alive in the career of Joss Whedon and studied internationally I'm Buffy and You're History puts the entire series under the microscope investigating its gender and feminist politics In this book Patricia Pender argues that Buffy includes diverse elements of feminism and reconfigures and sometimes revises the ideals of American second wave feminism for a wide third wave audience She also explores the ways in which the final season's vision of collective feminist activism negotiates racial and class boundaries Exploring the Slayer's postmodern politics her position as a third wave feminist icon her placing of masculinity in extremis and her fandom and legacy in popular culture this is a fresh and challenging contribution to the growing literature on the pitfalls and pleasures of a great cult TV show

Hot Equations Jesse S. Cohn, 2024-04-23 Inspired by the new diversity of science fiction fantasy and horror in the twenty first century Hot Equations Science Fantasy and the Radical Imagination on a Troubled Planet confronts the kinds of literary and political realism that continue to suppress the radical imagination Alluding both to the ongoing climate catastrophe and to Tom Godwin's The Cold Equations that famous touchstone of hard science fiction Hot Equations reads the crises of our post normal moment via works that increasingly subvert genre containment and spill out into the public sphere Drawing on archives and contemporary theory author Jesse S Cohn argues that these imaginative works of science fiction fantasy and horror strike at the very foundations of modernity calling its basic assumptions into question They threaten the modern order with a simultaneously terrible and promising anarchy pointing to ways beyond the present medical ecological and political crises of pandemic climate change and rising global fascism Examining books ranging from well known titles like The Hunger Games and The Caves of Steel to newer works such as Under the Pendulum Sun and The Stone Sky Cohn investigates the ways in which science fiction fantasy and horror address contemporary politics social issues and more The cold equations that established normal life in the modern world may be in shambles Cohn suggests but a New Black Fantastic makes it possible for the radical imagination to glimpse viable possibilities on the other side of crisis

Global Challenges in the Arctic Region Elena Conde, Sara Iglesias Sánchez, 2016-08-05 Bringing together interconnected

discussions to make explicit the complexity of the Arctic region this book offers a legal discussion of the ongoing territorial disputes and challenges in order to frame their impact into the viability of different governance strategies that are available at the national regional and international level One of the intrinsic features of the region is the difficulty in the determination of boundaries responsibilities and interests Against this background sovereignty issues are intertwined with environmental and geopolitical issues that ultimately affect global strategic balances and international trade and at the same time influence national approaches to basic rights and organizational schemes regarding the protection of indigenous peoples and inhabitants of the region This perspective lays the ground for further discussion revolving around the main clusters of governance focusing on the Arctic Council and the European Union with the particular roles and interest of Arctic and non Arctic states and the impact on indigenous populations environment including the relevance of national regulatory schemes and the intertwinement with concerns related to energy or migration strategy concentrating in geopolitical realities and challenges analysed from different perspectives and focusing on different actors and covering security and climate change related challenges This collection provides an avenue for parallel and converging research of complex realities from different disciplines through the expertise of scholars from different latitudes

Roll to Hit Harry Slater, 2025-08-30

It might be unauthorized but this book sure is comprehensive This isn't just a book about a game The author focuses on the people who created it and expanded it over the decades as well as the people whose contributions have been hidden in the shadows A richly detailed exciting and frequently surprising history Booklist Roll to Hit An Unofficial History of Dungeons and Dragons is a deep dive into the story behind the world's most popular tabletop roleplaying game From its humble beginnings in a basement in a house in a small town in Wisconsin through the Satanic Panic and the boom and bust of the 90s all the way to a modern resurgence that has seen the game become a true pop culture phenomenon the book tells the tale of the people who have shaped D D through every step of its development But more than that it's a story of leaps of imagination of shocking circumstances and tragedies of conflicts and comings together both on the table and off From HG Wells playing

with toy soldiers to multi million dollar movie deals from early war simulations to crazy homebrew campaigns the book explores the history of D D and asks why even after all this time its name remains a shorthand for the tabletop roleplaying experience As Dungeons Dragons reaches its fiftieth birthday and with the game is as popular as it s ever been regular players old school gamers and newcomers are going to find something here to excite and entice After all without them without the players there d be no Dungeons Dragons at all The Master Plan Brian H. Fishman,2016-11-22 An incisive narrative history of the Islamic State from the 2005 master plan to reestablish the Caliphate to its quest for Final Victory in 2020 Given how quickly its operations have achieved global impact it may seem that the Islamic State materialized suddenly In fact al Qaeda s operations chief Sayf al Adl devised a seven stage plan for jihadis to conquer the world by 2020 that included reestablishing the Caliphate in Syria between 2013 and 2016 Despite a massive schism between the Islamic State and al Qaeda al Adl s plan has proved remarkably prescient In summer 2014 ISIS declared itself the Caliphate after capturing Mosul Iraq part of stage five in al Adl s plan Drawing on large troves of recently declassified documents captured from the Islamic State and its predecessors counterterrorism expert Brian Fishman tells the story of this organization s complex and largely hidden past and what the master plan suggests about its future Only by understanding the Islamic State s full history and the strategy that drove it can we understand the contradictions that may ultimately tear it apart
