Nagy,Dianne P. O'Leary,2006-01-01 Describes the deblurring algorithms and techniques collectively known as spectral filtering methods in which the singular value decomposition or a similar decomposition with spectral properties is used to introduce the necessary regularization or filtering in the reconstructed image The concise MATLAB implementations described in the book provide a template of techniques that can be used to restore blurred images from many applications     **The School Journal** ,1903     Image-Based Damage Assessment for Underwater Inspections Michael O'Byrne,Bidisha Ghosh,Franck Schoefs,Vikram Pakrashi,2018-07-18 Inspection is crucial to the management of ageing infrastructure Visual information on structures is regularly collected but very little work exists on its organised and quantitative analysis even though image processing can significantly enhance these inspection processes and transfer real financial and safety benefits to the managers owners and users Additionally new opportunities exist in the fast evolving sectors of wind and wave energy to add value to image based inspection techniques This book is a first for structural engineers and inspectors who wish to harness the full potential of cameras as an inspection tool It is particularly directed to the inspection of offshore and marine structures and the application of image based methods in underwater inspections It outlines a set of best practice guidelines for obtaining imagery then the fundamentals of image processing are covered along with several image processing techniques which can be used to assess multiple damage forms crack detection corrosion detection and depth analysis of marine growth on offshore structures The book provides benchmark performance measures for these techniques under various visibility conditions using an image repository which will help inspectors to envisage the effectiveness of the techniques when applied MATLAB scripts and access to the underwater image repository are included so readers can run these techniques themselves Practising engineers and managers of infrastructure assets are guided in image processing based inspection Researchers can use this book as a primer and it also suits advanced graduate courses in infrastructure management or on applied image processing     Math Skills Made Fun Cindi Mitchell,1999 Teaching tips for solving math
