It is about enhancing intelligence and building self-confidence through music. It is about leading the child into a journey of self-discovery and many joyful experiences through music that should last a lifetime. The book is full of practical ideas, methods, techniques, and lesson plans for school teachers, parents, hospital caregivers, and musicians at every level who could obtain wonderful results through teaching, sharing, and living this timeless art. It is aimed at finding a way to retain this beautiful art in our education system. It is aimed at possibly creating loving work for parents, grandparents, caregivers, and young students. It is aimed at spreading love and communication through an art that has been around for centuries and is so readily available to all through modern technology. It is aimed at teaching the world to sing, love, laugh, communicate, and play through classical music. This book addresses the concepts, theories, and performance aspects of music like many other books written, but with detailed lesson plans and stories so a person with a short course of music training could get straight to work and start teaching a music class. The book is written with step-by-step processes that are fun for children. The activities and ideas in this book have been practised with countless children by the author for the past twenty-two years.

The Storytime Handbook Nina Schatzkamer Miller, 2014-01-27 Fresh fun ideas for children's storytime fill this book. The author, a long-time storytime facilitator, has put together 52 weekly themes plus additional plans for holidays, all with detailed instructions for talking about the theme and choosing the books, crafts, songs, poems, games, and snacks. Each storytime idea is illustrated with photographs of a suggested craft and snack for easy reference. Libraries, bookstores, preschools, and parents alike can use this book to offer themed storytimes that include discussion, literature, art, music, movement, and food. Options are provided for each storytime so the ideas can be used year after year.
