Chaos Project Bundle One: Books 2 - 4 J.C. Diem, 2025-07-06 Blurb For Chaos Project Bundle One Books 2 4 Dream Crusher Working for a vampire hadn't been in Harmoni's plans but so far it was turning out to be better than she'd expected. She and her friends were gaining more skills and experience doing what they loved best. Ares was bonus eye candy for Harm along with fitting in well with her crew. The handsome warrior has also proven he has talents he shouldn't possess given his harrowing past. Omen made a deal with his young employees and so far he wasn't living up to his end of their bargain. They needed him to find the creature who'd altered Ares but it wasn't going to be easy to force him to cooperate. Now that he knows they have combat skills she's worried he'll try to turn them into his personal assassins. Harmoni and Ares have a close connection being the only two of their kind in the entire world. Their bond will be strengthened when they discover a magical artifact. While it will bring them closer together it could also endanger Harm. They will need to weigh their desire for each other against the threat it could pose to Harmoni. Thought Twister Harmoni and her team are in a race to find the creature who can fix Ares. This isn't a mission they can blast through while snagging loot along the way. They'll have to find someone who knows who he is and where he is first. Omen made a deal with them that he would help them locate the syrichtae. They all know he's not assisting them out of the kindness of his undead heart. If he reneges on their bargain Harm and her friends will walk. The magical realm Harm and Ares keep being drawn to still remains a mystery. They can't control when they end up there but they know it must have some answers that they're seeking. Harmoni's visions show them pieces of the past but not what became of their ancient kin. Aion Corp hunters are relentless in their pursuit of the runaways. Their plans hinge on getting Ares back beneath their control. His time is running out and it's vital that they recapture him soon. The rest of the team is expendable except for Harmoni. They would very much like to get their hands on her as well. She's the key to figuring out exactly what their lost specimen can do. Purpose Denier Harmoni and her team are faced with a different kind of mission when they return to Augury from their latest job. One of the wolves who guards Omen's property is in trouble. Rescuing the shifter will have repercussions that none of them could have expected. It will change the dynamic of the group entirely. Thanks to her unexpected influx of power Harm will have to relearn how to use all of her talents again. They'll need every edge they can get during their war against Aion Corp and the Octet who run the company. Their enemies are now aware that Harmoni is far more powerful than they'd realized. They're even more determined to bring her and Ares beneath their control. Omen has to choose someone to search for the syrichtae now that they have an idea of where he's lurking. Ares is his hated rival so the last thing he wants to do is aid him. Harmoni will take her team and leave if he does nothing so he has no choice but to ask for help from someone he'd rather avoid at all costs.

The Outcast Chronicles Bundle Crista Crown, Harper B. Cole, The Outcast Chronicles is an epic mpreg shifter series that takes a small rag tag team of bounty hunters and turns them into a tight knit pack of found family fighting a war that started centuries ago but will end with them. Bottleneck Caroline Melly, 2017-10-17 The age of globalization is generally understood as involving the massive movement of people and goods on a scale never before seen in human history In *Mobile Fixations* anthropologist Caroline Melly examines mobility as a cultural value in urban Senegal paying close attention to the points at which the ideal of mobility meets obstructive realities Specifically she conceptualizes embouteillage the traffic bottleneck as a symbol for the fraught attempts of Dakar's citizens to construct their own mobile futures Through case studies of investment agencies cab companies investors state workers and return migrants Melly pays keen attention to the chronic uncertainty brought on by structural adjustment and how transnational networks might stand as models of inclusion and exclusion in contemporary Senegalese society Melly also guides us beyond West Africa's shores to the rickety Europe bound fishing boats upon which so many immigrants embark to see a different kind of mobile future abroad one that too often ends in tragedy In so doing the author shows how the consequences of local transformations reach well beyond a country's or even a continent's borders *Mobile Fixations* is an engaging and accessible work of cultural anthropology one that will be an invaluable read for anyone interested in contemporary African society and the global implications of urban development

Spies and Commandos Kenneth Conboy, Dale Andradé, 2000-03-16 During the Vietnam war the United States sought to undermine Hanoi's subversion of the Saigon regime by sending Vietnamese operatives behind enemy lines A secret to most Americans this covert operation was far from secret

in Hanoi all of the commandos were killed or captured and many were turned by the Communists to report false information. Spies and Commandos traces the rise and demise of this secret operation started by the CIA in 1960 and expanded by the Pentagon beginning in 1964 in the first book to examine the program from both sides of the war. Kenneth Conboy and Dale Andrade interviewed CIA and military personnel and traveled in Vietnam to locate former commandos who had been captured by Hanoi enabling them to tell the complete story of these covert activities from high level decision making to the actual experiences of the agents. The book vividly describes scores of dangerous missions including raids against North Vietnamese coastal installations and the air dropping of dozens of agents into enemy territory as well as psychological warfare designed to make Hanoi believe the resistance movement was larger than it actually was. It offers a more complete operational account of the program than has ever been made available particularly its early years and ties known events in the war to covert operations such as details of the 34 A Operations that led to the Tonkin Gulf incidents in 1964. It also explains in no uncertain terms why the whole plan was doomed to failure from the start. One of the remarkable features of the operation claim the authors is that its failures were so glaring. They argue that the CIA and later the Pentagon was unaware for years that Hanoi had compromised the commandos even though some agents missed radio deadlines or filed suspicious reports. Operational errors were not attributable to conspiracy or counterintelligence they contend but simply to poor planning and lack of imagination. Although it flourished for ten years under cover of the wider war covert activity in Vietnam is now recognized as a disaster. Conboy and Andrade's account of that episode is a sobering tale that lends a new perspective on the war as it reclaims the lost lives of these unsung spies and commandos.
