**Labor Relations Reference Manual** ,1962 **Waste and Misuse of Federal On-the-job Training Funds** United States. Congress. House. Committee on Government Operations. Employment and Housing Subcommittee,1993 This document records the oral and written testimony of witnesses who testified at two Congressional hearings on waste and misuse of federal on the job training funds provided through the Job Training Partnership Act JTPA Specifically the hearings focused on the case of the extensive use of on the job training funds by American Home Products AHP in Puerto Rico Witnesses who included representatives of the General Accounting Office the Department of Labor the Puerto Rican government and former employees of American Home Products pointed out that many companies especially American Home Products took advantage of JTPA funds to hire workers they would have hired anyway to train high school graduates instead of the more disadvantaged persons who were targeted by JTPA and to use JTPA funds for excessively long training periods for simple jobs The witnesses also alleged that American Home Products and many other companies used JTPA funds to train workers in Puerto Rico so that they could close older plants with more experienced workers The allegations were denied by the chairman of American Home Products who also

was a witness at the hearings KC *Adult Learning and Technology in OECD Countries* Centre for Educational Research and Innovation, 1996 In English with 1 paper in English French On cover title page OECD proceedings The Welfare State and Life Transitions Dominique Anxo, Gerhard Bosch, Jill Rubery, 2010 The Welfare State and Life Transitions uses the lens of key life stages to highlight changes in these transitions and in available resources for citizen support within nine European welfare states This timely book reveals that new life courses are found to require more and not less welfare support but only Sweden has developed an active life course approach and only three more could be considered supportive in at least some life stages For the remainder policies were at best limited or in Italy's case passive The contributors reveal that the neglect of changing needs is leading to greater reliance on the family and the labour market just as these support structures are becoming more unpredictable and more unequal They argue that alongside these new class inequalities new forms of intergenerational inequality are also emerging particularly in pension provision **Vocational Training** Gerhard Bosch, Jean Charest, 2009-09-10 The last decade has given rise to a strong public discourse in most highly industrialized economies about the importance of a skilled workforce as a key response to the competitive dynamic fostered by economic globalisation The challenge for different training regimes is twofold attracting young people into the vocational training system while continuing to train workers already in employment Yet on the whole most countries and their training systems have failed to reach those goals How can we explain this contradiction Why is vocational training seen to be an old institution Why does vocational training not seem to be easily adapted to the realities of the 21st century This book seeks to respond to these important questions It does so through an in depth comparative analysis of the vocational training systems in ten different countries Australia Canada Denmark France Germany Korea Mexico Morocco the United Kingdom and the USA
