past ages of superstition Jane Bennett challenges that view She seeks to rehabilitate enchantment showing not only how it is still possible to experience genuine wonder but how such experience is crucial to motivating ethical behavior A creative blend of political theory philosophy and literary studies this book is a powerful and innovative contribution to an emerging interdisciplinary conversation about the deep connections between ethics aesthetics and politics As Bennett describes it enchantment is a sense of openness to the unusual the captivating and the disturbing in everyday life She guides us through a wide and often surprising range of sources of enchantment showing that we can still find enchantment in nature for example but also in such unexpected places as modern technology advertising and even bureaucracy She then explains how everyday moments of enchantment can be cultivated to build an ethics of generosity stimulating the emotional energy and honing the perceptual refinement necessary to follow moral codes Throughout Bennett draws on thinkers and writers as diverse as Kant Schiller Thoreau Kafka Marx Weber Adorno and Deleuze With its range and daring *The Enchantment of Modern Life* is a provocative challenge to the centuries old narrative of disenchantment one that presents a new alter tale that discloses our profound attachment to the human and nonhuman world

Allegory and Enchantment Jason Crawford, 2017 *Allegory and Enchantment* is about the genealogies of modernity and about the lingering power of some of the cultural forms against which modernity defines itself religion magic the sacramental the medieval Jason Crawford explores the emergence of modernity by investigating the early modern poetics of allegorical narrative a literary form that many modern writers have taken to be paradigmatically medieval He investigates how allegory is intimately linked with a self conscious modernity and with what many commentators have in the last century called the disenchantment of the world in four of the most substantial allegorical narratives produced in early modern England William Langland's *Piers Plowman* John Skelton's *The Bowge of Courte* Edmund Spenser's *The Faerie Queene* and John Bunyan's *The Pilgrim's Progress*

The Enchantment Of Reason Pierre Schlag, 1998-07-22 The Enchantment of Reason is a lively critique of American legal thought and the American legal system s deification of reason In an attempt to understand the current malaise of American law and the depressed condition of American intellectual life in general Pierre Schlag diagnoses what he believes is an epidemic of pathological reliance on the principle of reason Contending that legal thinkers continually fail to recognize the aesthetic and ethical prejudices of rationalism Schlag creates a genealogy that shows how the call to reason has become a manipulative vehicle of power faith and prejudice In examining the fierce resistance to questioning reason s primacy this renowned critic and professor of American law demonstrates how those who use and study the law perpetuate their own methodological blind spots Claiming that reason has been endowed with a virtually mystical power to organize social life Schlag unravels the seemingly rational world of judicial opinions statutes doctrines and legal principles In the process he paints a shocking and sure to be controversial picture of the chaos and indeed violence of the American legal tradition This bold commentary on the irrationality of reason in American law and legal studies will interest not only legal scholars and philosophers but also serious thinkers across a broad disciplinary spectrum
