Education Restated Elliot Regenstein, 2022-07-26 Education Restated Getting Policy Right on Accountability Teacher Pay and School Choice offers the education policy community a roadmap for change in three hot button policy areas In each of these areas policy has been anchored around the wrong core values By putting the right core values at the heart of policy state governments can create more favorable conditions for education improvement at the local level Education Restated takes a pragmatic approach to policy change recognizing that the forces that created today's policies have not gone away and that on complex issues there are legitimate competing interests This book harmonizes the best ideas of opposing policy camps and identifies opportunities to strengthen connections between K 12 and early childhood For advocates seeking common ground with historical adversaries Education Restated provides some ideas on where they might find it **The End of Public Schools** David W. Hursh, 2015-10-16 The End of Public Schools analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public *OECD Economic Surveys: France 2017* OECD, 2017-09-14 GDP is set to grow fairly strongly in 2017 18 supported by private consumption and

investment The labour market has started to improve However productivity gains are too low to sustain social protection high quality public services and rising incomes in the long run *Resources in Education* ,1985-06 Reframing the Subject Kelly Ritter,2016-01-23 Mental hygiene films developed for classroom use touted vigilance correct behavior morality and model citizenship They also became powerful tools for teaching literacy skills and literacy based behaviors to young people following the Second World War In this study Kelly Ritter offers an extensive theoretical analysis of the alliance of the value systems inherent in mental hygiene films class based ideals democracy patriotism with writing education an alliance that continues today by way of the mass digital technologies used in teaching online She further details the larger material and cultural forces at work in the production of these films behind the scenes and their effects on education trends Through her examination of literacy theory instructional films policy documents and textbooks of the late 1940s to mid 1950s Ritter demonstrates a reliance on pedagogies that emphasize institutional ideologies and correctness over epistemic complexity and de emphasize the role of the student in his or her own learning process To Ritter these practices are sustained in today s pedagogies and media that create a false promise of social uplift through formalized education instead often resulting in negative material consequences ECGBL 2018 12th European Conference on Game-Based Learning Dr Melanie Ciussi,2018-10-04 *Federal Register* ,2013-06 Childhood Sexuality and AIDS Education Deevia Bhana,2015-08-27 Primary schoolchildren are frequently shielded from education on sexuality and sexually transmitted diseases in an effort to protect their innocence In countries like South Africa where AIDS is particularly widespread it is especially important to address prevention with younger boys and girls as active social agents with the capacity to engage with AIDS as gendered and sexual beings This volume addresses the question of children s understanding of AIDS not simply in terms of their dependence but as active participants in the interpretation of their social worlds The volume draws on an interview and ethnographic based study of young children in two socially diverse South African primary schools as well as interviews conducted with teachers and mothers of young children It shows how adults sustain the production of childhood sexual innocence and the importance of scaling up programs in AIDS intervention gender and sexuality It makes significant contributions to the global debate around childhood sexualities gender and AIDS education The Natural World as a Resource for Learning and Development: From Schoolyards to Wilderness Ming Kuo,Cathy Jordan,2019-11-04 **Making College Work** Harry J. Holzer,Sandy Baum,2017-08-15 Practical solutions for improving higher education opportunities for disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive any college credential while others earn degrees or certificates with little labor market value Large numbers of these students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged students stem both from issues on the individual side such as weak academic preparation and financial pressures and from

institutional failures Low income students disproportionately attend schools that are underfunded and have weak performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial aid or academic supports target individual students Other solutions such as stronger linkages between coursework and the labor market and more structured paths through the curriculum are aimed at institutional reforms All students and particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard choices and face difficult tradeoffs in the process While no single policy is guaranteed to greatly improve college and career outcomes implementing a number of evidence based policies and programs together has the potential to improve these outcomes substantially

Disaster and Climate Risk Education Ayse Yildiz, Rajib Shaw, 2024-09-30 Education serves as a cornerstone for gaining knowledge and taking initiative However despite efforts in disaster and climate risk education DCRE a gap often exists between awareness and meaningful action To bridge this gap and promote a progression from awareness to empowerment we offer the KIDA Knowledge Interest Desire Action framework The foundation of this framework is a collaboration between schools communities and families which calls for support from educational boards and

local governments Following international tragedies like the Turkey Syria earthquake of 2023 as well as the ever changing difficulties posed by climate change DCRE has to be given priority immediately Our book proposes a comprehensive strategy that includes governance capacity building education in schools and the community and technology integration Our insights analyses and practical policy suggestions are based on multidisciplinary research and worldwide case studies with the goal of strengthening resilience and cultivating a generation committed to sustainability This book provides a comprehensive exploration of DCRE It aims to prepare individuals and communities to face the challenges of a changing world head on by improving knowledge and promoting preparedness

Environmental Education in Indonesia Lyn Parker,Kelsie Prabawa-Sear,2019-08-08 Indonesia s wealth of natural resources is being exploited at breakneck speed and environmental awareness and knowledge among the populace is limited This book examines how young people learn about the environment to see how education can help to develop environmental awareness and avert vast environmental destruction not only in Indonesia but also in the Global South more generally Based on in depth studies conducted in the cities of Yogyakarta and Surabaya complemented with surveys of students in secondary schools Environmental Education in Indonesia examines educational curricula pedagogy and green activities to reveal what is currently being done in schools to educate children about the environment The book investigates the shortcomings in environment education including underqualified teachers the civil service mentality the still pervasive chalk and talk pedagogy and the effect of the examination system It also analyses the role of local government in supporting or not environmental education and the contribution of environmental NGOs The book establishes that young people are not currently being exposed to effective environmental education and the authors propose that the best and most culturally appropriate way forward in Indonesia is to frame pro environment behaviour and responsibility as a form of citizenship and specifically that environmental education should be taught as a separate subject This book will be of great interest to students and scholars of contemporary Indonesia and Southeast Asia education for sustainability and environmental education as well as sustainability and sustainable development more generally

Finnish Lessons 2.0 Pasi Sahlberg,2014-02-01 Pasi Sahlberg has thoroughly updated his groundbreaking account of how Finland built a world class education system during the past four decades In this international bestseller Sahlberg traces the evolution of Finnish education policies and highlights how they differ from the United States and much of the rest of the world Featuring substantial additions throughout the text Finnish Lessons 2 0 demonstrates how systematically focusing on teacher and leader professionalism building trust between the society and its schools and investing in educational equity rather than competition choice and other market based reforms make Finnish schools an international model of success This second edition details the complexity of meaningful change by examining Finlands educational performance in light of the most recent international assessment data and domestic changes
