The Shadow of Kenyan Democracy Dominic Burbidge, 2016-03-09 Why has democracy failed to reduce corruption in Kenya Framing the challenge in game theoretical terms Dominic Burbidge examines how mutual expectations between citizens dictate the success or failure of political reforms Since 1992 Kenya has conducted multiparty elections with the hope of promoting accountability and transparency in government This is being undermined by ongoing corruption and an increasingly centralised state response to terrorism Providing a nuanced assessment of democracy s difficult road in Kenya Burbidge discusses the independent role being played by widespread social expectations of corruption Through tracking average views of the average person it is possible to identify a threshold beyond which society suffers mutually reinforcing negative social expectations This trend is the shadow of Kenyan democracy and must be treated as a policy challenge on its own terms before institutional reforms will be successful

The World's Search for Sustainable Development Mukul Sanwal, 2015-11-05 This text traces the evolution of sustainable development and climate change from the time it emerged in international consultations and agreements The three sections of the book focusing on the framework climate change and sustainable development seek to cover the essentials of the politics of natural resource usage at the global level The book explores the evolution of sustainable development and climate change within the framework of the United Nations and the way the concept has been defined through intergovernmental meetings agreements and consensus within the multilateral system It also explores the best ways of reducing the risk to the planet while enabling societies to pursue sustainable development paths The challenges call for a

transformation of social systems to facilitate a broadly acceptable change The book also explores the adoption of low carbon models different from the high carbon socio technical systems and related social practices **Complexity and Crisis in the Financial System** Matthew Hollow,Folarin Akinbami,Ranald Michie,2016-01-29 What are the long term causes and consequences of the global financial crisis of 2007 2008 This book offers a fresh perspective on these issues by bringing together a range of academics from law history economics and business to look in more depth at the changing relationships between crises and complexity in the US and UK financial markets The contributors are motivated by three main questions Is the present financial system more complex than in the past and if so why To what extent and in what ways does the worldwide financial crisis of 2007 2008 differ from past financial crises How can governments regulators and businesses better manage and deal with increased levels of complexity both in the present and in the future Students and scholars of finance economics history financial law banking and international business will find this book to be of interest It will also be of use to regulators and policymakers involved in the US and UK banking sectors **Towards Good Order at Sea** Thomas Mandrup,Francois Vre~,2015-03-01 The problems originating from the resultant bad order at sea can be directly felt on land when smuggling terrorism and related criminal activities operate more or less unhindered The book provides an important mapping of the challenges preventing good order at sea off the African coast and East Africa in particular Rear Admiral N Wang Commandant Royal Danish Defence College **Neighbourhood Policy and the Construction of the European External Borders** Filippo Celata,Raffaella Coletti,2015-06-11 This book looks both backward and forward with regard to the European Union s political strategies towards its neighbouring countries By bringing together the perspectives of critical geopolitics policy studies and border studies it presents a comprehensive review of the European Neighbourhood Policy and how it impacts the ongoing construction of the EU s external frontiers Is the EU committed to promoting integration in a wider European space or is a fortress Europe emerging where the strengthening of internal cohesion is coupled with the militarisation of its external borders The book aims to problematize this question by showing how the EU s external policies are based on a mixture of openness and closure inclusion and exclusion cooperation and securitisation The European Neighbourhood Policy is a controversial strategy where regionalization and bordering homogenisations and differentiations centrifugal and centripetal forces proceed side by side in an explicit attempt to construct a selective mobile and fragmented border A specific focus is devoted to the diversity of geo strategies the EU is pursuing in its neighbouring countries and regions macro regional strategies and cross border cooperation initiatives as new scales of cooperation and the role of other global players **Routledge Handbook of National and Regional Ocean Policies** Biliana Cicin-Sain,David Vanderzwaag,Miriam C. Balgos,2015-05-15 This comprehensive handbook prepared by leading ocean policy academics and practitioners from around the world presents in depth analyses of the experiences of fifteen developed and developing nations and four key regions of the world that have taken concrete steps toward cross cutting and integrated national and

regional ocean policy All chapters follow a common framework for policy analysis While most coastal nations of the world already have a variety of sectoral policies in place to manage different uses of the ocean such as shipping fishing oil and gas development in the last two decades the coastal nations covered in the book have undertaken concerted efforts to articulate and implement an integrated ecosystem based vision for the governance of ocean areas under their jurisdiction This includes goals and procedures to harmonize existing uses and laws to foster sustainable development of ocean areas to protect biodiversity and vulnerable resources and ecosystems and to coordinate the actions of the many government agencies that are typically involved in oceans affairs The book highlights the serious conflicts of use in most national ocean zones and the varying attempts by nations to follow the prescriptions emanating from the 1982 UN Law of the Sea Convention and the outcomes of the 1992 2002 and 2012 sustainable development summits The interrelationship among uses and processes in the coast and ocean requires that ocean governance be integrated precautionary and anticipatory Overall the book provides a definitive state of the art review and analysis of national and regional ocean policies around the world Locating Value
