Geography Pnov 2014 Memo:

Rockhound: A Geography of Collecting Michael Gordon, 2017-05-15 In this book Rockhound A Geography of Collecting you will be shown Ontario's incredible history of mineral extraction and as you will see rockhounds follow in the signature that every industry left. The full Rockhound series tells you how and where to find crystals, minerals, gold, diamonds, and all manner of rock and mineral treasure for the collector. This book is an absolute gem and an essential guide to Ontario geology as it relates to mineral collecting.

Proceedings of Topical Issues in International Political Geography Radomir Bolgov, Vadim Atnashev, Yury Gladkiy, Art Leete, Alexey Tsyb, Sergey Pogodin, Andrei Znamenski, 2023-01-01 This proceedings book addresses the main issues of contemporary political geography and international relations, providing a platform for discussion and collaboration of experts in the fields of Political Geography, Geopolitics, International Relations, etc. Participants from all over the world consider the controversies and challenges posed by globalization, focusing in particular on the ideologies of globalization and regionalism, migration crises, prevention of ethnic conflicts, and measures to promote sustainable development. The content of the book may be interesting to expert community, academics, and popular audience.

Sovereignty and Land Rights of Indigenous Peoples in the United States Wayne Edwards, 2020-09-01 This book presents a comparative study of the land settlements and sovereign arrangements between the US government and the three major aggregated groups of indigenous peoples: American Indians, Native Alaskans, and Native Hawaiians, whose land rights claims have resulted in very different outcomes. It shows that the outcomes of their sovereign claims were different though their bases were similar. While the US government insists that it is committed to the government-to-government relationship it has with the tribes, federal authority severely limits the ability of tribal governments to participate as an equal partner.

The Drone Memos Jameel Jaffer, 2010-01-12 A trenchant summation and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists, including US citizens. Publishers Weekly starred review. In the long response to 9/11, the US government initiated a deeply controversial policy of targeted killing, the extrajudicial execution of suspected terrorists and militants typically via drones. A remarkable effort was made to legitimize this practice, one that most human rights experts agree is illegal and that the United States has historically condemned. In *The Drone Memos*, civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action. In a lucid and provocative introduction, Jaffer—who led the ACLU legal team that secured the release of many of the documents—evaluates the drone memos in light of domestic and international law. He connects the documents' legal abstractions to the real-world violence they allow and makes the case that we are trading core principles of democracy and human rights for the illusion of security. A careful study of a secretive counterterrorism infrastructure capable of sustaining endless, orderless war, this book is profoundly necessary.

The U.S. Foreign Language Deficit Kathleen Stein-Smith, 2016-08-24 This volume explores why Americans are among the least likely in the world to speak another language and how this U S foreign language deficit negatively impacts national and economic security business and career prospects Stein Smith exposes how individuals are disadvantaged through their inability to effectively navigate the global workplace and multicultural communities how their

career options are limited by the foreign language deficit and even how their ability to enjoy travel abroad and cultural pursuits is diminished Through exploring the impact of the U S foreign language deficit the author speaks to the stakeholders and partners in the campaign for foreign languages offering guidance on what can and should be done to address it She examines the next steps needed to develop specific career pathways that will meet the current and future needs of government business and industry and empower foreign language learners through curriculum and career preparation

Kyrgyzstan - Regime Security and Foreign Policy Kemel Toktomushev,2016-10-04 Kyrgyzstan is an interesting example of a relatively weak state which for its brief period of independence has already ousted two presidents experienced two revolutions survived two interethnic conflicts and yet remained intact This book explores this apparent paradox and argues that the schism between domestic and international dimensions of state and regime security is key to understanding the nature of Kyrgyz politics The book shows how the foreign policy links to the Manas Air Base used by the US military and essential for supplying their forces in Afghanistan the economic arrangements necessary for sustaining the base both inside and outside Kyrgyzstan and the myriad of different actors involved in all this combined to overshadow points of friction to ensure stable continuance of the status quo Overall the book shows how broad geopolitical forces and complex local factors together have a huge impact on the formation of Kyrgyz foreign policy Practising Cultural Geographies Ravi S.

Singh,Bharat Dahiya,Arun K. Singh,Padma C. Poudel,2022-05-20 This festschrift honours Prof Rana P B Singh who has dedicated his life to teaching and conducting research on cultural geography with a dweller Indian perspective The book focuses on the cultural geographies of India and to an extent that of South Asia It is a rich collection of 23 essays on the themes appraised by him covering landscapes religion heritage pilgrimage and tourism and human settlements **Against**

International Relations Norms Charlotte Epstein,2017-05-08 This volume uses the concept of norms to initiate a long overdue conversation between the constructivist and postcolonial scholarships on how to appraise the ordering processes of international politics Drawing together insights from a broad range of scholars it evaluates what it means to theorise international politics from a postcolonial perspective understood not as a unified body of thought or a new ism for IR but as a situated perspective offering ex centred post Eurocentric sites for practices of situated critique Through in depth engagements with the norms constructivist scholarship the contributors expose the theoretical epistemological and practical erasures that have been implicitly effected by the uncritical adoption of norms as the dominant lens for analysing the ideational dynamics of international politics They show how these are often the very erasures that sustained the workings of colonisation in the first place whose uneven power relations are thereby further sustained by the study of international politics The volume makes the case for shifting from a static analysis of norms to a dynamic and deeply historical understanding of the drawing of the initial line between the normal and the abnormal that served to exclude from focus the strange and the unfamiliar that were necessarily brought into play in the encounters between the West and the rest of the

world A timely intervention it will be of great interest to students and scholars of international relations international relations theory and postcolonial scholarship *City of Forests, City of Farms* Lindsay K. Campbell, 2017-10-15 City of Forests City of Farms is a history of recent urban forestry and agriculture policy and programs in New York City Centered on the 2007 initiative PlaNYC this account tracks the development of policies that increased sustainability efforts in the city and dedicated more than 400 million dollars to trees via the MillionTreesNYC campaign Lindsay K Campbell uses PlaNYC to consider how and why nature is constructed in New York City Campbell regards sustainability planning as a process that unfolds through the strategic interplay of actors the deployment of different narrative frames and the mobilizing and manipulation of the physical environment which affects nonhuman animals and plants as well as the city's residents Campbell zeroes in on a core omission in PlaNYC's original conception and funding Despite NYC having a long tradition of community gardening particularly since the fiscal crisis of the 1970s the plan contained no mention of community gardens or urban farms Campbell charts the change of course that resulted from burgeoning public interest in urban agriculture and local food systems She shows how civic groups and elected officials crafted a series of visions and plans for local food systems that informed the 2011 update to PlaNYC City of Forests City of Farms is a valuable tool that allows us to understand and disentangle the political decisions popular narratives and physical practices that shape city greening in New York City and elsewhere *The Middle and Upper Paleolithic Archeology of the Levant and Beyond* Yoshihiro Nishiaki, Takeru Akazawa, 2017-12-06 This volume is a compilation of results from sessions of the Second International Conference on the Replacement of Neanderthals by Modern Humans which took place between November 30 and December 6 2014 in Hokkaido Japan Similar to the first conference held in 2012 in Tokyo the 2014 conference RNMH2014 aimed to compile the results of the latest multidisciplinary approaches investigating the issues surrounding the replacement of Neanderthals by modern humans The results of the sessions supplemented by off site contributions center on the archeology of the Middle and Upper Paleolithic of the Levant and beyond The first part of this volume presents recent findings from the Levant while the second part focuses on the neighboring regions namely the Caucasus the Zagros and South Asia The 13 chapters in this volume highlight the distinct nature of the cultural occurrences during the Middle and Upper Paleolithic periods of the Levant displaying a continuous development as well as a combination of lithic traditions that may have originated in different regions This syncretism which is an unusual occurrence in the regions discussed in this volume reinforces the importance of the Levant as a region for interpreting the RNMH phenomenon in West Asia *Exploring Greenland* Ronald E. Doel, Kristine C. Harper, Matthias Heymann, 2016-07-06 Using newly declassified documents this book explores why U S military leaders after World War II sought to monitor the far north and understand the physical environment of Greenland a crucial territory of Denmark It reveals a fascinating yet little known realm of Cold War intrigue and a delicate diplomatic duet between a smaller state and a superpower amid a time of intense global pressures Written by scholars in Denmark and the United

States this book explores many compelling topics What led to the creation of the U S Thule Air Base in Greenland one of the world s largest and why did the U S build a nuclear powered city under Greenland s ice cap How did Danish concern about sovereignty shape scientific research programs in Greenland Also explored here why did Denmark s most famous scientist Inge Lehmann become involved in research in Greenland and what international reverberations resulted from the crash of a U S B 52 bomber carrying four nuclear weapons near Thule in January 1968 Quality in Obesity Treatment John M.
