Including authors representative of many geography education traditions, the book pays equal attention to learning and teaching and to respect student voices and includes rich in case studies evidence based research and specific examples. It also emphasizes ways that geography education can contribute to global concerns about social justice, diversity, equity, and inclusion, as well as ways it can help to prepare the next generation of informed, critical, and reflective members of societies. The book is divided into five sections: Purposes of geography education, Why is it taught, Perspectives on geography education, What is taught, Practices of geography education, How is it organized and taught, Preparation of geography educators, How are geography educators prepared, Possibilities for geography education, What is the future of geography education.
