Transboundary Water Management Anton Earle,2013 The management of water resources across boundaries whether sub national or international is one of the most difficult challenges facing water managers today The upstream exploitation or diversion of groundwater or rivers can have devastating consequences for those living downstream and transboundary rivers can provide a source of conflict between nations or states particularly where water resources are scarce Similarly water based pollution can spread across borders and create disputes and a need for sound governance This book is the first to bring together in a concise and accessible way all of the main topics to be considered when managing transboundary waters It will raise the awareness of practitioners of the various issues needed to be taken into account when making water management decisions and provide a practically based overview for advanced students The authors show clearly how vital it is to cooperate effectively over the management of shared waters to unlock their contribution to regional sustainable development The book is largely based on a long running and tested international training programme run by the Stockholm International Water Institute and Ramboll Natura and supported by the Swedish International Development Co operation Agency Sida where the respective authors have presented modules on the programmes It addresses issues not only of conflict but also of managing power asymmetries benefit sharing stakeholder participation international water law environmental water requirements and regional development It will be particularly useful for those with a background in hydrology or engineering who wish to broaden their management skills **Regional Worlds: Advancing the Geography of Regions** Martin Jones,Anssi Paasi,2017-10-02 A key concern in the debate and empirical research on the geography of regions is the evolution of the conceptualizations and practical uses of the idea of region This idea prioritises both the intellectual and the practical development of regional studies This book drives the discussion further It stresses the complex forms of agency advocacy involved in the production and reproduction of regional spaces and space of regionalism as well as the importance of geohistory and context The book moves beyond the territorial relational divide that has characterized debates on regions and regional borders since the 1990s The contributors answer key questions from different conceptual

and concrete contextual angles and to motivate readers to reflect on the perpetual significance of regional concepts and how they are mobilized by various actors to maintain or transform the contested spatialities of societal power relations This book was based on a special issue of Regional Studies **Subject Index to Periodicals**, 2009 2024-25 IAS All States PSC General Studies Indian & World Geography Solved Papers YCT Expert Team, 2024 25 IAS All States PSC General Studies Indian World Geography Solved Papers 400 695 E This book contains 380 sets solved papers and 4476 objective questions 2024-25 IAS/PSC General Studies Indian & World Geography YCT Expert Team , 2024 25 IAS PSC General Studies Indian World Geography *Averting Crisis in Ukraine* Steven Pifer, 2009 This Council Special Report commissioned by CFR s Center for Preventive Action takes all these issues into account and examines the many challenges facing Ukraine The report comprehensively analyzes the country s difficulties related to both domestic conditions for example fractious politics and deeply divided public opinion and foreign policy for example issues related to the Black Sea Fleet and Ukrainian and European dependence on Russia s natural gas The report then recommends ways for the United States to encourage Ukraine on a path of stability and integration with the West It proposes measures to bolster high level dialogue between Washington and Kiev foster effective governance in Ukraine and reduce Ukraine s susceptibility to Russian pressure On the crucial NATO question the report urges the United States to support continued Ukrainian integration with the alliance though it recommends waiting to back concrete steps toward membership until Kiev achieves consensus on this point One need not agree with this judgment to find Pifer s analysis of value *Averting Crisis in Ukraine* takes a clear eyed look at the issues that could cause instability or worse in Ukraine But it also recommends practical steps that could increase the prospect that Ukraine will enjoy a prosperous democratic and independent future **Governing Global Production** J.
