## Geography Paper 2 November 2013 Memorandum:

Cash Not Care Mo Stewart, 2016-09-14 Mo Stewart is a former healthcare professional a disabled female veteran and an independent researcher This book is the culmination of six years of self funded research and the evidence exposes the influence of corporate America since 1992 with the future welfare reforms of the UK The impact of the enforced austerity measures of the UK government is identified as they negatively affect the welfare and the survival of the chronically sick and disabled population in receipt of welfare benefits when unfit to work The research has informed welfare reform debates in the House of Lords and the House of Commons since 2011 and contributed to the evidence used by the United Nations to investigate the UK government for breaches of the Human Rights of sick and disabled people Endorsed by the disabled community and by academics the research has identified the adoption of lethal social policies copied from American social security policies and linked to the death of thousands of the most vulnerable of all as the UK welfare state is systematically demolished as all planned over thirty years ago by a previous Conservative government *Deepening Neoliberalism, Austerity, and Crisis* Julien Mercille, Enda Murphy, 2015-07-07 From bank bailouts to austerity Europe's and Ireland's response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland's crisis resolution Human Rights and the Dark Side of Globalisation Thomas Gammeltoft-Hansen, Jens Vedsted-Hansen, 2016-12-08 This book examines the continued viability of international human rights law in the context of extraterritorialisation outsourcing and privatisation of law enforcement tasks New forms of state cooperation raise difficult questions about divided shared and joint responsibility under international human rights law This book brings together some of the most authoritative legal voices to provide an introduction to core issues such as state responsibility attribution and extraterritorial jurisdiction as well as up to date case studies of different transnational law enforcement issues It will interest students scholars and practitioners of IR human rights and public international law *The Life of Permafrost* Pey-Yi Chu, 2020-12-07 In the Anthropocene the thawing of frozen earth due to global warming has drawn worldwide attention to permafrost Contemporary scientists define permafrost as ground that maintains a negative temperature for at least two years But where did this particular conception of permafrost originate and what alternatives existed The Life of Permafrost provides an intellectual history of permafrost placing the phenomenon squarely in the political social and material context of Russian and Soviet science Pey Yi Chu shows that understandings of frozen earth were shaped by two key experiences in the Russian Empire and the Soviet Union On one hand the colonization and industrialization of Siberia nourished an engineering perspective on frozen earth that viewed the phenomenon as an aggregate physical structure ground On the other a Russian and Soviet tradition of systems thinking encouraged approaching frozen earth as a process condition and space tied to planetary exchanges of energy and matter Aided by the US militarization of the Arctic during the Cold War the engineering

view of frozen earth as an obstacle to construction became dominant The Life of Permafrost tells the fascinating story of how permafrost came to acquire life as Russian and Soviet scientists studied named and defined it **Projecting Citizenship**

Gabrielle Moser,2019-01-11 In Projecting Citizenship Gabrielle Moser gives a comprehensive account of an unusual project produced by the British government's Colonial Office Visual Instruction Committee at the beginning of the twentieth century a series of lantern slide lectures that combined geography education and photography to teach schoolchildren around the world what it meant to look and to feel like an imperial citizen Through detailed archival research and close readings Moser elucidates the impact of this vast collection of photographs documenting the land and peoples of the British Empire circulated between 1902 and 1945 in classrooms from Canada to Hong Kong from the West Indies to Australia Moser argues that these photographs played a central role in the invention and representation of imperial citizenship She shows how citizenship became a photographable and teachable subject by tracing the intended readings of the images that the committee hoped to impart to viewers and analyzing how spectators may have used their encounters with these photographs for protest and resistance Interweaving political and economic history history of pedagogy and theories of citizenship with a consideration of the aesthetic and affective dimensions of viewing the lectures Projecting Citizenship offers important insights into the social inequalities and visual language of colonial rule Tigary: The Panarchy of War Mirjam Van

Reisen,Munyaradzi Mawere,2024-11-17 The Tigray War 2020 2022 left a deep and lasting impact not only on Tigray but also on the wider Horn of Africa In this second book in a three part series the authors examine the devastation wrought by the war on Tigray's cultural heritage and identity The deliberate destruction of ancient cultural sites and the assault on the Tigrayan people's identity have fueled a desire for greater autonomy among the people of Tigray to protect their future Through the lens of Panarchy this book explores how the war's effects extend far beyond Tigray reshaping the dynamics of the entire region Crucially it uncovers Eritrea's secret role in the conflict which was deliberately concealed by Ethiopia Eritrean forces were implicated not only in atrocities but also in the use of particularly cruel and inhumane sexual violence intended to break the spirit of the Tigrayan people and erase Tigray as an ethnic and cultural group This ethnographic research conducted in collaboration with universities inside and outside Ethiopia reveals the profound transformations caused by the war with consequences that will reverberate for years to come It sheds light on the war's long term impact and highlights the urgent need for international attention on the challenges faced by Tigray and the wider region The

Difference that Gender Makes to International Peace and Security Sara E. Davies,Nicole George,Jacqui True,2018-10-29 Fifteen years after the adoption of UN Security Council Resolution 1325 which establishes the Women Peace and Security agenda there is now a need to assess the impacts of gender equality efforts and to understand why and how gender equality reforms have advanced to the extent that they have This book examines how international peace and security is re envisioned from a gender perspective by mostly focusing on the nuances presented by the Asia Pacific region It argues that despite the

diversity of political socio cultural and economic systems in the Asia Pacific women and girls in the region continue to experience similar forms of insecurities Several countries in the Asia Pacific have demonstrated relative peace and stability In addition women s leadership and participation in peacebuilding are and continue to be increasingly recognized in the region too However as the chapters in this book demonstrate applying a critical gender analysis allows for the interrogation of veneers of political order which can then mask or normalise everyday gendered insecurities The analysis of country cases such as Myanmar Cambodia and Fiji underscores a rethinking of the political order in the Asia Pacific which leaves existing gender inequalities intact The chapters in this book were originally published in a special issue in the International Feminist Journal of Politics      *Exclusion and Inclusion in International Migration: Power, Resistance and Identity* Armağan Teke Lloyd, 2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign authority regulating the entry and exit of people However in recent years a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism instability and criminality The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced These assumptions correspond with a real policy shift in some countries such as the United States where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants although the focus is largely on the former Despite the fact that most of the empirical studies are drawn from within Europe the book also includes research on Nepal Australia the Middle East and Japan in order to reveal the truly global dimensions of migration and the regimes governing this Content INTRODUCTION by Arma an Teke Lloyd PART A Ideology and Governance of Migration CHAPTER 1 Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin CHAPTER 2 A Forest with many trees Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli Rebecca Mavin and Giorgia Trasciani CHAPTER 3 Policing Migrants in Transit and Upon Arrival The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson PART B Regulations Suspension of Human Rights CHAPTER 4 Borders Exception and Sovereignty Australia s Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu CHAPTER 5 Power and Sandwiched Sovereignty Nepali Migrant Workers in the Gulf Countries by Hari KC CHAPTER 6 The Body and Embodied Experiences in the British Asylum System

**War and Revolution in the Caucasus** Stephen F. Jones, 2013-09-13 The South Caucasus has traditionally been a playground of contesting empires This region on the edge of Europe is associated in Western minds with ethnic conflict and geopolitical struggles in August 2008 Yet another war broke out in this distant European periphery as Russia and Georgia clashed over the secessionist territory of South Ossetia The war had global ramifications culminating in deepening tensions between Russia on the one hand and Europe and the USA on the other Speculation on the causes and consequences of the war focused on Great Power rivalries and a new Great Game on oil pipeline routes and Russian imperial aspirations This book takes a different tack which focuses on the domestic roots of the August 2008 war Collectively the authors in this volume present a new multidimensional context for the war They analyse historical relations between national minorities in the region look at the link between democratic development state building and war and explore the role of leadership and public opinion Digging beneath often simplistic geopolitical explanations the authors give the national minorities and Georgians themselves the voice that is often forgotten by Western analysts This book was based on a special issue of Central Asian Survey

**Integrating Food into Urban Planning** Yves Cabannes, Cecilia Marocchino, 2018-11-22 The integration of food into urban planning is a crucial and emerging topic Urban planners alongside the local and regional authorities that have traditionally been less engaged in food related issues are now asked to take a central and active part in understanding how food is produced processed packaged transported marketed consumed disposed of and recycled in our cities While there is a growing body of literature on the topic the issue of planning cities in such a way they will increase food security and nutrition not only for the affluent sections of society but primarily for the poor is much less discussed and much less informed by practices This volume a collaboration between the Bartlett Development Planning Unit at UCL and the Food Agricultural Organisation aims to fill this gap by putting more than 20 city based experiences in perspective including studies from Toronto New York City Portland and Providence in North America Milan in Europe and Cape Town in Africa Belo Horizonte and Lima in South America and in Asia Bangkok and Tokyo By studying and comparing cities of different sizes from both the Global North and South in developed and developing regions the contributors collectively argue for the importance and circulation of global knowledge rooted in local food planning

*Islam and the Liberal State* Stephen H. Jones, 2020-11-26 National identity and liberal democracy are recurrent themes in debates about Muslim minorities in the West Britain is no exception with politicians responding to claims about Muslims lack of integration by mandating the promotion of fundamental British values including democracy and individual liberty This book engages with both these themes addressing the lack of understanding about the character of British Islam and its relationship to the liberal state It charts a gradual but decisive shift in British institutions concerned with Islamic education Islamic law and Muslim representation since Muslims settled in the UK in large numbers in the 1950s Based on empirical research including interviews undertaken over a ten year period with Muslims and analysis of public events organized by Islamic institutions Stephen Jones challenges claims about the isolation of British Islamic organizations and shows that they have decisively shaped themselves around British public and institutional norms He argues that this amounts to the building of a distinctive British Islam Using this narrative the book makes the case for a variety of liberalism that is open to the expression of religious arguments in public and to associations between religious groups and the state It also offers a powerful challenge to claims about the insularity of British Islamic institutions by showing how the national orientation of Islam called for by British policymakers is in fact already happening

Policy,Committee on Post-Disaster Recovery of a Community's Public Health, Medical, and Social Services,2015-09-10 In the devastation that follows a major disaster there is a need for multiple sectors to unite and devote new resources to support the rebuilding of infrastructure the provision of health and social services the restoration of care delivery systems and other critical recovery needs In some cases billions of dollars from public private and charitable sources are invested to help communities recover National rhetoric often characterizes these efforts as a return to normal But for many American communities pre disaster conditions are far from optimal Large segments of the U S population suffer from preventable health problems experience inequitable access to services and rely on overburdened health systems A return to pre event conditions in such cases may be short sighted given the high costs both economic and social of poor health Instead it is important to understand that the disaster recovery process offers a series of unique and valuable opportunities to improve on

the status quo Capitalizing on these opportunities can advance the long term health resilience and sustainability of communities thereby better preparing them for future challenges Healthy Resilient and Sustainable Communities After Disasters identifies and recommends recovery practices and novel programs most likely to impact overall community public health and contribute to resiliency for future incidents This book makes the case that disaster recovery should be guided by a healthy community vision where health considerations are integrated into all aspects of recovery planning before and after a disaster and funding streams are leveraged in a coordinated manner and applied to health improvement priorities in order to meet human recovery needs and create healthy built and natural environments The conceptual framework presented in Healthy Resilient and Sustainable Communities After Disasters lays the groundwork to achieve this goal and provides operational guidance for multiple sectors involved in community planning and disaster recovery Healthy Resilient and Sustainable Communities After Disasters calls for actions at multiple levels to facilitate recovery strategies that optimize community health With a shared healthy community vision strategic planning that prioritizes health and coordinated implementation disaster recovery can result in a communities that are healthier more livable places for current and future generations to grow and thrive communities that are better prepared for future adversities
