## **Hong Kong Business Law 6th Edition:**

**Business Associations, Second Edition** Clement Shum, 1991-01-14 The purpose of this book is to introduce the reader to the law of agency and partnership as well as company law It assumes that the reader is familiar in outline with the Hong Kong legal system and knows something about the law of contract It is one of a series published by the Hong Kong University Press under the general editorship of Professor Derek Roebuck to provide accounting students with an introduction to Hong Kong law

**Searching the Law, 3d Edition** Frank Bae, Edward Bander, Francis Doyle, Joel Fishman, Paul Richert, 2021-12-13

Secured Finance Law in China and Hong Kong Mark Williams, Haitian Lu, Chin Aun Ong, 2010-10-14 This book examines systematically the current systems of secured lending in China and Hong Kong where companies or individuals offer personal property as security for credit advanced by a lender Valid and enforceable security reduces the risk to the lender and so lowers the cost of credit to the borrower However the Hong Kong system being largely derived from English law is highly complex and in need of root and branch reform The forces of inaction have triumphed and valuable opportunities to create a modern rational and efficient system have been squandered In China on the other hand a completely new system has been created in the last twenty years which whilst it has various problems and defects has some notable advantages over the common law equivalent found in Hong Kong

*Business Law in Hong Kong, Malaysia and Singapore* Judith Sihombing, Ramlah Mahmood (Nik.), Paul Latimer, 1991 Areas of business law discussed include torts contracts property sale of goods business finance and insurance in Hong Kong Malaysia and Singapore with reference to case law The law is stated as of 1 January 1991

TORT LAW, 2018-07-18 **Tort Law in Hong Kong** Stephen D. Mau, 2015-07-10 This is one in a series of introductory books providing readers with an overview of the more frequently encountered legal principles This book focuses on the common law tort principles that apply in the territory As a basic introduction this book is intended to be user friendly The text is kept short and easy to read Chinese translations of most legal terms used in the text are provided An extensive endnote section provides readers with additional information and in depth explanations Thoroughly revised and reorganized this second edition of Tort Law in Hong Kong will appeal to students of legal subjects professionals whose work involves interaction with legal matters and the general public

**Contract Law in Changing Times** Normann Witzleb, 2022-12-30 This collection of essays provides a rich and contemporary discussion of the principle of pacta sunt servanda This principle which requires that valid agreements are to be honoured is a cornerstone of contract law Focusing on contributions from Asia this book shows that despite its natural and universal appeal the pacta sunt servanda principle is neither absolute nor immutable Exceptions to the binding force of contract must be available in limited circumstances to avoid hardship and unfairness This book offers readers new comparative perspectives on the appropriate balance between contractual certainty and flexibility in an era of social instability Expert authors mostly from East and Southeast Asia explore when their domestic legal systems allow exceptions from the binding force of contracts

Doctrines discussed include impossibility frustration change of circumstance force majeure illegality as well as rights of withdrawal Other chapters consider the importance of the pacta principle in international law The challenges posed by the COVID 19 pandemic feature strongly in the majority of contributions

Essentials of Business Law (2007) ,2007 **Essentials of business law** Ewan MacIntyre,2018-03-27 Essentials of Business Law is well regarded for its clear yet succinct exposition of core principles and key cases across the essential legal topics relevant to business students This new edition has been significantly updated and deals fully and comprehensively with the Consumer Rights Act 2015

**The Dynamics of Peaceful and Violent Protests in Hong Kong** Sonny Shiu-Hing Lo,Steven Chung-Fun Hung,Jeff Hai-Chi Loo,2020-09-29 This book shows that Hong Kong's protests from June to December 2019 originated from not only an attempt to extradite a Hong Kong man involved in a Taiwan murder case but also China's effort at extraditing corrupt mainlanders who laundered dirty money in the territory The mixture of peaceful and violent protests was due to the snowballing effect of protestors police confrontations the imbalanced way in which police exercised their power and protestors strategies The protests triggered the national security concerns of Beijing which mobilized the People's Armed Police to Shenzhen as a warning rather than sending them openly to Hong Kong to avoid undermining the image of one country two systems The entire debate raised the concerns of Washington Taiwan and foreign governments heightening Beijing's sensitivity After the bill was withdrawn the anti extradition movement has become anti police and anti mainland constantly challenging the legitimacy of the Hong Kong government and Beijing This is a valuable read for China watchers political scientists and all those interested in the future of East Asia

*EC Trade Law Following China's Accession to the WTO* Jan Hoogmartens,2004-01-01 The World Trade Organisation cannot be deemed truly international without the full participation of China a massive market with an increasing number of highly sophisticated sectors Yet although China did accede to the WTO in 2001 after fifteen years of negotiations WTO members persist in classifying China as a non market economy with all the trade restrictions such labelling entails The EC in particular continues to curtail the flow of Chinese European trade despite some recent liberalisation in EC import and antidumping regulations In this important book Dr Hoogmartens clearly points the way to an equitable resolution of the complex problems raised by the friction between China's planned economy and EC trade policy instruments The economic interface he constructs takes account of such crucial elements as the following China's unfinished legal and economic reforms the danger that the EC may develop an abusive protectionist stance the challenge to the EC of increased Chinese competition the persistence of Chinese state owned enterprises the absence of a satisfactory methodology to deal with the Chinese variant of a non market economy the possible adjustment of EC antidumping regulations vis vis China emergency safeguards the role of the rule of law in trade regulation and the translatability of Western social and political institutions Addressing as it does a highly salient present and future aspect of the global economy *EC Trade Law Following China's WTO Accession* will be of enormous value to policymakers in international economic law at all national and
