Augustin-Jean,Anthea Cheung,2018-02-15 In the autumn of 2014 thousands of people young and educated in their majority occupied the chief business district and seat of the government in Hong Kong The protest known as the Umbrella Movement called for genuine democracy as well as a fairer social and economic system The book aims to provide a dynamic framework to explain why socioeconomic forces converged to produce such a situation Examining increasing inequality rising prices and stagnating incomes it stresses the role of economic and social factors as opposed to the domestic political and constitutional issues often assumed to be the root cause behind the protests It first argues that globalization and the increasing influence of China s economy in Hong Kong has weighted on salaries Second it shows that the oligopolistic nature of the local economy has generated rents which have reinforced inequality The book demonstrates that the younger generation which is still finding its place in society has been particularly affected by these phenomena especially with social mobility at a low point Offering a new approach to studying the Umbrella Movement this book will appeal to students and scholars interested in Hong Kong s political landscape as well Chinese politics more broadly
