J.K. Rowling: This is the definitive bibliography of the writings of J.K. Rowling. In addition to complete bibliographic details of each edition of all her books, pamphlets and original contributions to published works, there is detailed information on the publishing history of her work including fascinating extracts from correspondence and information on Rowling at auction. This will be the first source on Rowling consulted by textual scholars, book dealers and collectors, auction houses, critics and researchers. The aim of the book is to record fact and dispel rumour on the fascinating publishing history of the Harry Potter series. **Michael Neo Palaeologus His Grammar** Stephen N. Speaking Being Bruce Hyde,Drew

Kopp,2019-08-06 Speaking Being Werner Erhard Martin Heidegger and a New Possibility of Being Human is an unprecedented study of the ideas and methods developed by the thinker Werner Erhard In this book those ideas and methods are revealed by presenting in full an innovative program he developed in the 1980s called The Forum available in this book as a transcript of an actual course led by Erhard in San Francisco in December of 1989 Since its inception Erhard s work has impacted the lives of millions of people throughout the world Central to this study is a comparative analysis of Erhard s rhetorical project The Forum and the philosophical project of Martin Heidegger Through this comparative analysis the authors demonstrate how each thinker s work sometimes parallels and often illuminates the other The dialogue at work in

The Forum functions to generate a language which speaks being That is The Forum is an instance of what the authors call ontological rhetoric a technology of communicating what cannot be said in language Nevertheless what does get said allows those participating in the dialogue to discover previously unseen aspects of what it currently means to be human As a primary outcome of such discovery access to creating a new possibility of what it is to be human is made available The purpose of this book is to show how communication of the unspoken realm of language speaking being is actually accomplished in The Forum and to demonstrate how Erhard did it in 1989 Through placing Erhard s language use next to Heidegger s thinking presented in a series of Sidebars and Intervals alongside The Forum transcript the authors have made two contributions They have illuminated the work of two thinkers who independently developed similar forms of ontological rhetoric while working from very different times and places Hyde and Kopp have also for the first time made Erhard s extraordinary form of ontological rhetoric available for a wide range of audiences from scholars at work within a variety of academic disciplines to anyone interested in exploring the possibility of being for human beings From the Afterword I regard Speaking Being as an enormously important contribution to understanding Heidegger and Erhard The latter has received far too little serious academic attention and this book begins to make up for that lack Moreover the book s analysis of Heidegger s thought is among the best that I have ever read I commend this book to all readers without reservation Michael E Zimmerman Professor Emeritus University of Colorado Boulder *Pitman's Journal of Commercial Education* ,1893
