Todd Diane Lloyd, 2020-11-22 *Todd* is a great story that outlines the hardship many children born in the fifties experienced at a time when children where often needed to help around the home or the family business While there were many good parents who loved their children deeply there were others who only needed help or felt it their duty to provide heirs or just one more set hands to pitch in *Todd* is the storey of two such lonely children who found a way to make up for the lack of love and affection in their lives It is a story of hard work and courage Heather was only seven years old when *Todd* was born but she stick handled her way through their childhood in a way that gave hope and purpose to both their lives No problem was too large to handle and no hardship to much to endure One only had to keep the end result in mind and know that someday things would be better With an uncanny ability to hang onto what was good and endure what wasn t she never gave up Her plan was almost perfect This story takes place in rural Ontario and covers four small

Franklin,2013-07 Memory is our most treasured asset Seldom has such a complex subject been presented in a compelling narrative where the intellect the curious and the recipient of horrific memories can grasp its meaning *Mnemosyne A Love Affair with Memory* is such a story The two main characters Larry L Franklin and Richard Semon lived in different centuries on opposite sides of the world with memory as the common obsession that ties the two stories together Franklin was diagnosed with post traumatic stress disorder brought on by physical and sexual childhood abuse He had lived for decades without knowing the cause of his misery If not for his mother s revelations he might never have seen the memories that nearly cost him his sanity Long term therapy self exploration and an able psychotherapist brought him back from the dark side Richard Semon was a world renowned nineteenth century evolutionary biologist His reputation crumbled when he fell in love with a fellow professor s wife who chose to leave her husband and children for a life with Richard The university fired Richard his peers turned away and the one time professor turned private thinker philosopher dedicated the remainder of his life to the study of memory Peer rejection and the later death of his wife drove Richard into a deep depression followed by suicide This is a work of creative nonfiction written in the form of a hybrid memoir The complexities of memory together with the mysteries of a spiritual journey yearned for an approach different from the strictly fact based nonmetaphorical strategies most common in nonfiction Long before the written word the ancient Greeks conveyed the complications of mortal life and left veiled advice for future generations through stories myths and legends They brought human qualities and quests to life through the exploits of an assortment of gods goddesses and other mythological creatures Even now artists sometimes use Greek mythology to explain the seemingly unexplainable I chose *Mnemosyne* the goddess of memory as a conduit for the deeper more abstract aspects of my own and Richard Semon s navigation of the spiritual world Personifying memory as the Greeks did seemed appropriate to my quest as it was to Richard Semon s Writers of memoir depend on their relationship to memory are smitten with it are obsessed by it and chase it down the halls of recollection always in pursuit of an entity that disappears around every next corner much like an elusive lover who bids the beloved to come hither but who then flees

disappearing and reappearing in a seemingly endless chase When memory finally turns to face the one chasing her the embrace can be both wonderful and terrible This was so for Richard Semon and it was so for me Memory reaches back in time and challenges the accuracy of what one recalls in that embrace I wrote what I remember nothing more nothing less
