Literature and Social Development Centre de recherches pour le développement international (Canada),Fitzpatrick, Lois,International Development Research Centre (Canada),Morin-Labatut, Gisèle,1981 Predatory Pricing in Antitrust Law and Economics Nicola Giocoli,2014-01-10 Can a price ever be too low Can competition ever be ruinous Questions like these have always accompanied American antitrust law They testify to the difficulty of antitrust enforcement of protecting competition without protecting competitors As the business practice that most directly raises these kinds of questions predatory pricing is at the core of antitrust debates The history of its law and economics offers a privileged standpoint for assessing the broader development of antitrust its past present and future In contrast to existing literature this book adopts the perspective of the history of economic thought to tell this history covering a period from the late 1880s to present times The image of a big firm such as Rockefeller s Standard Oil or Duke s American Tobacco crushing its small rivals by underselling them is iconic in American antitrust culture It is no surprise that the most brilliant legal and economic minds of the last 130 years have been engaged in solving the predatory pricing puzzle The book shows economic theories that build rigorous stories explaining when predatory pricing may be rational what welfare harm it may cause and how the law may fight it Among these narratives a special place belongs to the Chicago story according to which predatory pricing is never profitable and every low price is always a good price **Excel HSC Legal Studies** Belinda Brassil,2004 *DHHS Publication No. (ADM). ,1984*

World Culture Re-Contextualised Jürgen Schriewer,2017-10-02 Impressive strands of research have shown the emergent reality of increasing world level interconnection in almost every field of social action As a consequence theories and models have been developed which are aimed at conceptualising this new reality along the lines of an institutionalised World Culture This offers a new understanding of the worldwide diffusion of specifically modern i e mainly Western rules ideologies and organisational patterns and of attendant harmonisation and standardisation of fields of

social action World Culture theories have not gone unchallenged Rather cross cultural studies have revealed much more complex processes of regional fragmentation and re diversification of the refraction appropriation and hybridisation through distinct socio cultural conditioning of world level models and ideas and of the ongoing effectiveness both of structural path dependencies and of specifically cultural aspects such as collective memories social meanings and religious or ideological belief systems Comparative research has thus highlighted an intricate simultaneity of contrary currents of the increasing world level interconnection of communication and exchange relations on the one hand and on the other the persistence of context specific interpretations translations and deviation generating re contextualisations of world level forces and challenges This research provides the theoretical problematique that animates this volume The chapters explore the conceptual tools and explanatory power of theories and models which do not just oppose or reject World Culture theory but are instead suited to complementing and differentiating it The volume offers an enlightening conceptualisation of the intricate interaction of global processes with local agency and of world level forces with the self evolutionary potentials inherent in specific contexts socio cultural structures and distinctive meanings constellations This book was originally published as a special issue of Comparative Education
