Building a Website: Designing a Website Page with CSS

1. Designing a Website Page with CSS

The first design decision you make is whether to use a template or a custom design. A template is a pre-designed page layout that you can modify to create your own website. A custom design is a page layout that you create from scratch.

This document is organized chronologically, starting with the design of the page layout. The next step is the design of the content. The design of the content is the design of the text, images, and other elements that will be placed on the page.
