Contesting Masculinities and Women's Agency in Kashmir Amya Agarwal,2022-07-18 What is the significance of gender and masculinities in understanding conflict Through an ethnographic study conducted between 2013 and 2016 this book explores the politics of competing and sometimes overlapping masculinities represented by the state armed forces and the non state actors in the Kashmir valley In addition the book broadens the understanding of women s agency through its engagement with the construction performance and interplay of masculinities in the conflict Combining existing elements of

both feminist research and critical scholarship on men and masculinities the book highlights the significance of foregrounding the interplay of men's identities in conflicts to understand agency in a meaningful way Through the focus on the simultaneous play of multiple masculinities the book also questions the oversimplified and monolithic usage of masculinity being associated only with violence in conflicts The empirical data in the book includes interviews and narratives of multiple stakeholders belonging to diverse vantage points in the Kashmir conflict Some of these include activists widows wives of the disappeared ex-militants surrendered militants participants of the stone pelting movement mothers of sons killed in the conflict women representatives of the village Halqa Panchayats and army personnel The book also draws from alternative material in the form of graffiti folk songs poetry on graves and slogans Through anecdotal reminiscence the author reflects on the challenges of field research in Kashmir that served as an opportunity for self-contemplation **An**

Anthropological Economy of Debt Bernard Hours, Pepita Ould Ahmed, 2015-04-10 Debt is often thought of as a mere economic variable governed by a simplistic mechanical logic ignoring its other facets Whose debt and debt of what exactly This volume analyzes debt as a political and social construct with a multiplicity of purposes and agents All of these are vectors of meanings that are highly diverse and of subtle distinctions they show that debt is a transverse phenomenon cutting across spaces that are not merely economic but also domestic social and political Each contributor takes a fresh view of the subject dealing with debt at a different time in a different society on a different scale of observation By adopting a determinedly interdisciplinary approach the authors reveal in the phenomenon of debt a diversity of social and gendered determinants that amount in some cases to domination allegiance or slavery and in others to solidarity and emancipation Debt is at one and the same time shared imposed political and gendered **Pornography, Sex Work, and Hate Speech**
