dynamic Australian case law on proportionality means it also serves to clarify the nature and status of proportionality in Australia at a critical moment Since the 2015 decision of *McCloy v New South Wales* where four justices supported the introduction of a structured three part test of proportionality the Court has continued to disagree about the utility of such a test These developments mean that this book with its doctrinal and comparative approach is particularly timely

relationship between regulation and private law and solutions for policy makers      Peter Akinola: Who Blinks First? Gbenga Gbesan, 2020-03-30 To the astonishment and dismay of Anglican leadership in the Global North Nigeria's Archbishop Peter Akinola led the Global South's revolt against the campaign to normalize homosexuality within the global Anglican communion. For this he was twice recognized by Time magazine as one of the 100 Most Influential People on earth. As shepherd of an immense Nigerian flock he joined arms with like-minded archbishops in Africa, Asia and South America to insist that the church be guided by the Bible rather than culture. Here is the remarkable story of this conflict from its social beginnings in nineteenth-century Germany through the renegade behavior of national churches in Canada, the United States and the United Kingdom on to gatherings addressing the issues from Dromantine Northern Ireland to Kuala Lumpur, Malaysia. At one point Archbishop of Canterbury Rowan Williams, who had been enabling the progressives, challenged Archbishop Akinola: We shall see who blinks first. Since that day it is clear that neither Akinola nor his colleagues have blinked. Indeed, through the formation of GAFCON (Global Anglican Future Conference) and union with biblically faithful Anglicans in the Global North, they are pressing their cause with an eye toward the next decennial assembly of bishops at Lambeth.      **Related Party**

**Transactions and Corporate Groups** Ivan Romashchenko, 2020-03-06 In a market environment where economic actors conduct themselves as diligent and conscientious managers, the regulation of related party transactions (RPTs) would be largely irrelevant. Unfortunately, the corporate reality is far from an ideal world that is innocent of market abuse and corporate fraud. It remains necessary to protect minority shareholders from the wrongdoings of majority shareholders and to protect all shareholders from opportunistic managerial behaviour. This timely book, the first on the subject since implementation of the European Union's EU's revised Shareholders Rights Directive, provides in-depth analysis of how and to what extent RPTs are covered by existing legal requirements on capital protection and corporate group regulation, highlighting experiences and strategies adopted in Germany, Poland and the Netherlands as examples for Eastern European countries and in particular Ukraine. Beyond his comparative analysis of the current status, the author offers recommendations for more effective handling of RPTs, investigating such aspects as the following: what constitutes a corporate group and how group issues are regulated in the various legal systems; what constitutes a conflict of interest originating in ownership and control and what types of such conflicts occur; whether RPTs within corporate groups should receive special treatment relative to transactions outside groups; combatting corporate raiding, most often carried out through illegal seizure of corporate assets; approval and disclosure requirements for RPTs; and how information about RPTs is disclosed publicly. Drawing on resources including legislation, case law, scholarship and intensive discussions with practicing lawyers from several jurisdictions, the author underscores the imperative of establishing limitations and requirements that oblige a company's officers, shareholders and other potential related parties to follow certain rules whenever they wish to enter into an RPT. As a contribution to the debate about the convergence between EU corporate law and that of major eastern European

states the book has no peers Practitioners in both East and West who advise on compliance with regulations for RPTs or represent stakeholders interests against abusive RPTs will ensure appropriate remedies and protection mechanisms for their clients
