China's Peasant Agriculture and Rural Society Jan Douwe van der Ploeg, Jingzhong Ye, 2016-05-20 China's agriculture and rural society has undergone rapid changes in recent years Many poorer farmers and younger people have moved to cities and yet China has an immense challenge to feed a growing and more affluent population This book provides a bottom up view of China's agriculture showing how the many millions of Chinese peasants make a living It presents a vivid description of the mechanisms used by rural households to defend and sustain their livelihoods increase their agricultural production and improve the quality of their lives The authors examine the newly emerging trajectories of entrepreneurial and capitalist farming and assess whether such alternatives will be able to

meet the enormous social economic and environmental challenges that China faces The book also explores the paradigm that has underpinned the organisation and development of China s agriculture from ancient times to the present day This shows the importance of balancing in the Chinese model as compared to the one sided imposition of continual modernization in the western model It is argued that such balancing is at the core of the current Sannong policy referring to the three ruralities of food sovereignty wellbeing for peasant households and an attractive countryside

Mercury Rising: John Glenn, John Kennedy, and the New Battleground of the Cold War Jeff Shesol,2021-06-01 A riveting history of the epic orbital flight that put America back into the space race If the United States couldn t catch up to the Soviets in space how could it compete with them on Earth That was the question facing John F Kennedy at the height of the Cold War a perilous time when the Soviet Union built the wall in Berlin tested nuclear bombs more destructive than any in history and beat the United States to every major milestone in space The race to the heavens seemed a race for survival and America was losing On February 20 1962 when John Glenn blasted into orbit aboard Friendship 7 his mission was not only to circle the planet it was to calm the fears of the free world and renew America s sense of self belief Mercury Rising re creates the tension and excitement of a flight that shifted the momentum of the space race and put the United States on the path to the moon Drawing on new archival sources personal interviews and previously unpublished notes by Glenn himself Mercury Rising reveals how the astronaut s heroics lifted the nation s hopes in what Kennedy called the hour of maximum danger

International Commercial Arbitration Gary B. Born,2014-10-01 The second edition of Gary Born s International Commercial Arbitration is an authoritative 4 408 page

treatise in three volumes providing the most comprehensive commentary and analysis on all aspects of the international commercial arbitration process that is available. The first edition of *International Commercial Arbitration* is widely acknowledged as the preeminent commentary in the field. It was awarded the 2011 Certificate of Merit by the American Society of International Law and was voted the International Dispute Resolution Book of the Year by the Oil Gas Mining and Infrastructure Dispute Management list serve in 2010. The first edition has been extensively cited in national court decisions and arbitral awards around the world. The treatise comprehensively examines the law and practice of contemporary international commercial arbitration thoroughly explicating all relevant international conventions, national arbitration statutes and institutional arbitration rules. It focuses on both international instruments, particularly the New York Convention, and national law provisions in all leading jurisdictions, including the UNCITRAL Model Law on International Commercial Arbitration. Practitioners, academics, clients, institutions and other users of international commercial arbitration will find clear and authoritative guidance in this work. The second edition of *International Commercial Arbitration* has been extensively revised, expanded and updated to include all material legislative, judicial and arbitral authorities in the field of international arbitration prior to January 2014. It also includes expanded treatment of annulment, recognition of awards, counsel ethics, arbitrator independence and impartiality and applicable law.

Overview of volumes: Volume I covering *International Arbitration Agreements* provides a comprehensive discussion of international commercial arbitration agreements. It includes chapters dealing with the legal framework for enforcing international arbitration agreements, the separability presumption, choice of law, formation and validity, nonarbitrability, competence, competence and the allocation of jurisdictional competence, the effects of arbitration agreements, interpretation and non-signatory issues. Volume II covering *International Arbitration Procedures* provides a detailed discussion of international arbitral procedures. It includes chapters dealing with the legal framework for international arbitral proceedings, the selection, challenge and replacement of arbitrators, the rights and duties of international arbitrators, selection of the arbitral seat, arbitration procedures, disclosure and discovery, provisional measures, consolidation, joinder and intervention, choice of substantive law, confidentiality and legal representation and standards of professional conduct. Volume III dealing with *International Arbitral Awards* provides a detailed discussion of the issues arising from international arbitration awards. It includes chapters covering the form and contents of awards, the correction, interpretation and supplementation of awards, the annulment and confirmation of awards, the recognition and enforcement of arbitral awards and issues of preclusion, *lis pendens* and *stare decisis*.

RDA Around the World, Marie-France Plassard, Gordon Dunsire, 2017-10-02. This book provides a snapshot of the implementation in various countries around the world of the international cataloging standard RDA: resource description and access. All stages of implementing a new standard are covered, from initial assessment and impact analysis through translation, staff training and data migration to implementation and user orientation. Contributions include the results of detailed research into awareness of the standard in

professional groups differences between catalog metadata produced using RDA and current local standards and the effect of RDA on the presentation of catalog displays to the end user The contributions cover aspects of RDA implementation in Canada China German speaking countries Iran Israel Mexico the Philippines Singapore and Turkey and French German and Spanish translation activity The information contained will be relevant for many years to come for those who are intending to implement RDA review the quality of legacy data measure the impact of the globalization of cataloguing data or prepare for education and orientation in international bibliographic standards This book was published as a special double issue of Cataloging and Classification Quarterly *Functional Future for Bibliographic Control* Shawne D. Miksa, 2017-07-05 The quest to evolve bibliographic control to an equal or greater standing within the current information environment is on going As information organizers we are working in a time where information and communication technology ICT has pushed our status quo to its limits and where innovation often needs the pressure of do or die in order to get started The year 2010 was designated as the Year of Cataloging Research and we made progress on studying the challenges facing metadata and information organization practices However one year of research is merely a drop in the bucket especially given the results of the Resource and Description and Access RDA National Test and the Library of Congress decision to investigate the possibility of transitioning the MARC21 format This book addresses how information professionals can create a functional environment in which we move beyond just representing information resources and into an environment that both represents and connects at a deeper level Most importantly it offers insight on transitioning into new communities of practice and awareness by reassessing our purpose re charting our efforts reasserting our expertise in the areas that information organizer have traditionally claimed but are losing due to stagnation and lack of vision This book was published as a double special issue of the Journal of Library Metadata *Meta-Geopolitics of Outer Space* N. Al-Rodhan, 2012-05-11 Al Rodhan sheds new light on the debate about the geopolitics of outer space going beyond applying traditional International Relations approaches to space power and security by introducing a multidimensional spatial framework The meta geopolitics framework includes space and expands classical power considerations to cover seven state capacities **Building the e-World Ecosystem** Tomas Skersys, Rimantas Butleris, Lina Nemuraite, Reima Suomi, 2011-12-09 This book constitutes the thoroughly refereed post conference proceedings of the 11th IFIP WG 6.11 Conference on e Business e Services and e Society I3E 2011 held in Kaunas Lithuania in October 2011 The 25 revised papers presented were carefully reviewed and selected from numerous submissions They are organized in the following topical sections e government and e governance e services digital goods and products e business process modeling and re engineering innovative e business models and implementation e health and e education and innovative e business models Life in Space Maura Phillips Mackowski, 2022-05-24 This book explores the many aspects and outcomes of NASA's research in life sciences a little understood endeavor that has often been overlooked in histories of the space agency *Contemporary Issues in*

Biospheres Collide: A History of NASA's Planetary Protection Programs Michael Meltzer, 2012-01-27 PRINT FORMAT ONLY NOTE NO FURTHER DISCOUNT FOR THIS PRINT PRODUCT OVERSTOCK SALE Significantly reduced list price This new book from the NASA History Series tackles an interesting duo of biological problems that will be familiar to anybody who has seen photos of Apollo astronauts quarantined after their return to Earth Namely how do we avoid contaminating celestial bodies with Earthly germs when we send spacecraft to study these bodies and how do we avoid spreading foreign biological matter from space when our robotic and human spacefarers return to Earth Biological matter from an external system could potentially cause an unchecked epidemic either on Earth or in space so strict precautions are necessary Each time a space vehicle visits another world it runs the risk of forever changing that extraterrestrial environment We are surrounded on

Earth by a m lrange of different microorganisms and if some of these hitchhike onboard a space mission they could contaminate and start colonies on a different planet Such an occurrence would irrevocably alter the nature of that world compromise all future scientific exploration of the body and possibly damage any extant life on it By inadvertently carrying exotic organisms back to Earth on our spacecraft we also risk the release of biohazardous materials into our own ecosystem Such concerns were recognized by scientists even before the 1957 launch of Sputnik This book presents the history of planetary protection by tracing the responses to the above concerns on NASA s missions to the Moon Mars Venus Jupiter Saturn and many smaller bodies of our solar system The book relates the extensive efforts put forth by NASA to plan operations and prepare space vehicles that return exemplary science without contaminating the biospheres of other worlds or our own To protect irreplaceable environments NASA has committed to conducting space exploration in a manner that is protective of the bodies visited as well as of our own planet Cloud Computing for Scientific Research Jie

Nonfiction Book Awards Societies are vulnerable to any number of potential disasters earthquakes hurricanes infectious diseases terrorist attacks and many others Even though the dangers are often clear there is a persistent pattern of inadequate preparation and a failure to learn from experience Before disasters institutions pay insufficient attention to risk in the aftermath even when the lack of preparation led to a flawed response the focus shifts to patching holes instead of addressing the underlying problems Examining twenty years of disasters from 9 11 to COVID 19 Jeff Schlegelmilch and Ellen Carlin show how flawed incentive structures make the world more vulnerable when catastrophe strikes They explore how governments the private sector nonprofits and academia behave before during and after crises arguing that standard operational and business models have produced dysfunction *Catastrophic Incentives* reveals troubling patterns about what does and does not matter to the institutions that are responsible for dealing with disasters The short termism of electoral politics and corporate decision making the funding structure of nonprofits and the institutional dynamics shaping academic research have all contributed to a failure to build resilience Offering a comprehensive and incisive look at disaster governance *Catastrophic Incentives* provides timely recommendations for reimagining systems and institutions so that they are better equipped to manage twenty first century threats Making Education Work for the Poor William Elliott, Melinda Lewis, 2018-07-03 Making Education Work for the Poor identifies wealth inequality as the gravest threat to the endangered American Dream Though studies have clearly illustrated that education is the primary path to upward mobility today educational outcomes are more directly determined by wealth than innate ability and exerted effort This accounting directly

contradicts Americans understanding of the promise the American Dream is supposed to offer a level playing field and a path towards a more profitable future In this book the authors share their own stories of their journeys through the unequal U S education system One started from relative privilege and had her way to prosperity paved and her individual efforts augmented by institutional and structural support The other grew up in poverty and had to fight against currents to complete higher education only to find his ability to profit from that degree compromised by student debt To directly counter wealth inequality and make education the great equalizer that Americans believe it to be this book calls for a revolution in financial aid policy from debt dependence to asset empowerment The book examines the evidence base supporting Children s Savings Accounts including CSAs demonstrated potential to improve children s outcomes all along the opportunity pipeline early education school achievement college access and completion and post college financial health It then outlines a policy that builds on CSAs to incorporate a sizable progressive wealth transfer This new policy Opportunity Investment Accounts is framed as the cornerstone of the wealth building agenda the nation needs in order to salvage the American Dream Written by leading CSA researchers the book includes overviews of the major children s savings legislation proposed in Congress and the key features of prominent CSA programs in operation around the country today as well as new qualitative and quantitative CSA research The book ultimately presents a critical development of the theories that together explain how universal progressive asset based education financing could make education work equitably for all American children
