Beth Fertig, 2009-09-15 Why cant U teach me 2 read is a vivid stirring passionately told story of three students who fought for the right to learn to read and won only to discover that their efforts to learn to read had hardly begun A person who cannot read cannot confidently ride a city bus shop take medicine or hold a job much less receive e mail follow headlines send text messages or write a letter to a relative And yet the best minds of American education cannot agree on the right way for reading to be taught In fact they can hardly settle on a common vocabulary to use in talking about reading As a result for a quarter of a century American schools have been riven by what educators call the reading wars and our young people have been caught in the crossfire Why cant U teach me 2 read focuses on three such students Yamilka Alejandro and Antonio all have learning disabilities and all legally challenged the New York City schools for failing to teach them to read by the time they got to high school When the school system s own hearing officers ruled in the students favor the city was compelled to pay for the three students now young adults to receive intensive private tutoring Fertig tells the inspiring heartbreaking stories of these three young people as they struggle to learn to read before it is too late At the same time she tells a story of great change in schools nationwide where the crush of standardized tests and the presence of technocrats like New York s mayor Michael Bloomberg and his schools chancellor Joel Klein have energized teachers and parents to question the meaning of education as never before And she dramatizes the process of learning to read showing how the act of reading is nothing short of miraculous Along the way Fertig makes clear that the simple question facing students and teachers alike How should young people learn to read opens onto the broader questions of what schools are really for and why so many of America s schools are faltering Why cant U teach me 2 read is a poignant vital book for the reader in all of us      Questions Couples Ask Behind Closed Doors James Osterhaus, 2014-11-04 Hands on practical tools and communication strategies that can heal and transform your marriage into a rich and rewarding relationship The What is healthy question is just one of many questions couples have asked me over and over again in my

[Applicable Law in Investor-State Arbitration](#) Hege Elisabeth Kjos, 2013-03-21. This is an open access title available under the terms of a CC BY-NC-ND 3.0 International licence. It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations. This book examines the law, national and/or international, that arbitral tribunals apply on the merits to settle disputes between foreign investors and host states. In light of the freedom that the disputing parties and the arbitrators have when designating the applicable law and because of the hybrid nature of legal relationship between investors and states, there is significant interplay between the national and the international legal order in investor state arbitration. The book contains a comprehensive analysis of the relevant jurisprudence, legal instruments and scholarship surrounding arbitral practice with respect to the application of national law and international law. It investigates the awards in which tribunals referred to consistency between the legal orders and suggests alternatives to the traditional doctrines of monism and dualism to explain the relationship between the national and the international legal order. The book also addresses the territorialized or internationalized nature of the tribunals, relevant choice of law rules and methodologies and the scope of the arbitration agreement, including the possibility of host states presenting counterclaims in investment treaty arbitration. Ultimately, it argues that in investor state arbitration, national and international law do not only coexist but may be applied simultaneously; they are also interdependent, each complementing and informing the other, both indirectly and directly, for a larger common good: enforcement of rights and obligations regardless of their national or international origin.
