

# Why is language learning beyond the classroom important?

- Deconstruction of traditional classroom instruction – self-access centres, distance learning, workplace learning, learning for practical purposes, etc.
- Globalization and the shrinking world – media technologies and mobility; access to ‘authentic’ language (Kramsch 2014)
- Learners often begin in the classroom and continue elsewhere
- Pickard (1995) – learners attribute high levels of proficiency to learning beyond the classroom

**Language Learning Beyond the Classroom** David Nunan, Jack C. Richards, 2015-01-30 This volume presents case studies of language learning beyond the classroom. The studies draw on a wide range of contexts from North and South America to Europe and the Asia Pacific region. Each provides principled links between theory, research and practice. While out of class learning will not replace the classroom, ultimately all successful learners take control of their own learning. This book shows how teachers can help learners bridge the gap between formal instruction and autonomous language learning. Although English is the primary focus of most chapters, there are studies on a range of other languages including Spanish and Japanese.

*Autonomous Language Learning with Technology* Chun Lai, 2017-06-29 This book looks beyond the classroom and focuses on out of class autonomous use of technology for language learning, discussing the theoretical frameworks, key findings and critical issues. The proliferation of digital language learning resources and tools is forcing language education into an era of unprecedented change. The book will stimulate discussions on how to support language learners to construct quality autonomous technology-mediated out of class learning experience outside the classroom and raise greater awareness of and research interest in this field. Out of class learning constitutes an important context for human development and active engagement. In out of class activities, is associated with successful language development. With convenient access to expanded resources, venues and learning spaces, today's learners are not as dependent on in-class learning as they used to be. Thus a deeper understanding of the terrain of out of class learning is of increasing significance in the current educational era. Technology is part and parcel of out of class language learning and has been a primary source that learners actively use to construct language learning experience beyond the classroom. Insights into learners' out of class autonomous use of technology for language learning are essential to our understanding of out of class learning and inform educators on how language learners could be better supported to maximize the educational potentials of technology to construct quality out of class learning experience.

*The Routledge Handbook of Language Learning and Teaching Beyond the Classroom* Hayo Reinders, Chun Lai (Language teacher), Pia Sundqvist, 2022 Informal language learning beyond the classroom plays an important and growing role in language learning and teaching. This Handbook brings together the existing body of research and unites the various disciplines that have explored this area in order to present the current state of knowledge in one accessible resource. Much of adult learning takes place outside of formal education and for language learning it is likely that out of class experiences play an equally important role. It is therefore surprising that the role of informal language learning has received little attention over the years, with the vast majority of research instead focusing on the classroom. Researchers from a range of backgrounds, however, have started to realise the important contribution of informal language learning both in its own right and in its relationship with classroom
