Environmental design is a fundamental principle in shaping cities. However, environmental challenges like increased resource consumption, water degradation, and waste-related issues are among the greatest problems now facing humanity, which is why these issues need to be considered with regard to smart cities, either for the development of new urban centers or for the transformation of existing cities. The book not only discusses the importance of integrating sustainability principles in the urban design process but also demonstrates their application to the development of sustainable cities. As such, the book offers essential information and a source of inspiration for all those who want to build more sustainable cities. *Artificial*

*Intelligence Solutions for Global Health and Disaster Response: Challenges and Opportunities* Tetyana Chumachenko, Plinio Pelegrini Morita, Dmytro Chumachenko, Saman Ghaffarian, 2024-09-02. Artificial intelligence (AI) has shown promise as an effective tool in disaster preparedness and response, providing a unique perspective on some of the most urgent health challenges. Rapid advances in AI technology can potentially revolutionize the way how we respond to emergencies and disasters that affect the world's health, including early warning systems, resource allocation, and real-time decision making. This Research Topic aims to explore the latest developments in AI and its applications in global health and disaster response, providing a comprehensive overview of the potential and challenges of AI in improving health outcomes in crises. This Research Topic will bring together leading researchers, practitioners, and policymakers in global health and disaster response to share their experiences and insights on how AI can be leveraged to improve response efforts and enhance healthcare delivery. *The Benefits of Nature-Based Solutions to Psychological Health* Giovanni Sanesi, Giuseppina Spano, Payam Dadvand, 2021-03-10.

Trans\* Policies & Experiences in Housing & Residence Life Jason C. Garvey, Stephanie H. Chang, Z Nicolazzo, Rex Jackson, 2023-07-03. Co-published with What are the institutional politics associated with fostering trans-inclusive policies? When formalizing a policy, what unanticipated challenges may emerge? How are students, particularly trans students, influenced by the implementation of gender-inclusive housing practices and policies? Also, what are campus administrators and practitioners learning from their involvement with the development of trans work on campus? Housing and Residence Life (HRL) plays an important role in the safety, well-being, and sense of belonging for college students, but gender-inclusive policies and practices in HRL are largely under-explored in student affairs and higher education publications. There are five key objectives that guide this book: 1. To promote and challenge student affairs and higher education staff knowledge about trans students' identities and experiences; 2. To support and celebrate the accomplishments of educators and professionals in their strides to promote trans-inclusive policies and practices; 3. To highlight the unique role that housing and residence life plays in creating institutional change and serving trans student populations; 4. To demonstrate the value and use of scholarly/personal narratives, particularly for narrating experiences related to implementing trans-inclusive policies in housing and residence life; and 5. To create a strong partnership between scholarship and student affairs practice by developing an avenue for practitioner-scholars to publish their experiences related to gender-inclusive policies in housing.

and residence life and for others to use these stories to improve their practice Administrators educators and student affairs staff will find this book useful at any stage in the process of creating gender inclusive housing policies on their campuses
