Michigan Government, Politics, and Policy John S Klemanski, David A Dulio, 2017-08-02 The State of Michigan has experienced both tremendous growth and great decline in its history After many decades of growth up to the 1950s a wide variety of challenges had to be confronted by citizens and all levels of government in Michigan The late 20th and early 21st centuries have seen pockets of growth but also long term economic decline in several areas in the state As one example steep economic decline in major industrialized cities such as Detroit Flint and Pontiac led to increased unemployment rates and flight from the state as residents sought jobs elsewhere Michigan was in fact the only state in the union to experience net population loss between 2000 and 2010 At the same time emergencies such as the Detroit
