**Nineteenth Century New England** Terese Volk Tuohey,2015-12-17 There is a need for historical studies in music education that focuses on the common person Historians in general have been doing this for years but music education history has yet to catch up to the field Although there have been many biographies and biographical studies about the more well known music educators little has been done investigating what teaching was like for the average teacher and even less is known

about teaching music in the early years of music education in the United States A Musician and Teacher in Nineteenth Century New England Irving Emerson 1843 1903 argues that understanding history requires knowledge of the people who lived during the time This book focuses on what Irving Emerson's life was like as a musician and music teacher during this early and critical period of music education During this time in history the growth of music as a curricular study in the United States from singing schools to classroom singing and note reading paralleled Emerson's teaching career It was because of the groundwork established by music teachers like Irving Emerson that the music curriculum developed in the twentieth century to include music appreciation instrumental music ensembles and marching band along with general music classes and choral music education This is an invaluable resource to music educators musicians and historians alike in understanding the beginnings and formation of what is today music appreciation in the education system
