Singh,2021-11-10 Effective Management of Long Term Care Facilities Fourth Edition examines the complex operations of the long term care facility and offers critical skills to current and future long term care administrators for delivering quality cost effective services An excellent resource for both new and seasoned long term care managers this logically organized text begins with an understanding of what long term

care is and why it is an integral part of the health care delivery system. It moves on to explore the legal and regulatory parameters and payment constraints within which long term care facilities must be managed, each of the main functional departments that administrators must understand and oversee, and effective governance and leadership and management of human resources, marketing, and quality, much of which is unique to nursing home administration. The final section of the book offers case studies to simulate situations that the administrator is likely to encounter in practice.

Instructor Resources Test bank PowerPoint slides answers to end of chapter questions and case studies sample course syllabi and a transition guide to the new edition. Long term care continues to evolve and change especially in response to the global COVID 19 pandemic. Dimensions of Long Term Care Management provides a comprehensive overview of this field and how it has been affected by regulatory changes, the response to these changes by managers performing their day to day operations, and the opportunities presented by the growing use of technology along with skilled workforce shortages. Readers will gain a thorough understanding of how long term services and supports are delivered and what it is like to work in this sector. The book opens with an overview of long term services, supports, and systems for coordination of care and care transitions from acute to post acute and long term in light of policy changes. The next chapters focus on the importance of taking a population health and health equity perspective in administration of these services as well as support for cultural competence training. The book's final section covers long term care community operations, leadership, and administration of these services, legal and ethical challenges, and risk management and quality improvement to ensure successful patient outcomes and safety. This revised edition includes updated statistics throughout and is aligned with the National Association of Long Term Care Administrator Boards Domains of Practice for Health Services Executives. It also features the following updates: A new chapter detailing the key business and clinical operations of long term care communities and the administrator's responsibilities. A new chapter describing models for population health and wellness and their application to long term care consumers. Expanded discussion of workforce shortages including recruitment and retention strategies and a new human resources case study. Updated regulatory information including the new Medicare Conditions of Participation for all long term care providers and the new Minimum Data Set assessment. Expanded coverage of long term care services, leadership, including a new case study. New case studies in several chapters that highlight the health disparities and health equity issues affecting long term services and supports. Dimensions of Long Term Care Management can be used in any business, gerontology, healthcare management, long term care administration, or public health program to provide students with a broad understanding of the field and the career opportunities it provides.
