

ATM Quick Configuration Guide

For Connecting an ATM to a C2C or an E2C

This document provides quick guidelines for configuring your automated teller machine (ATM) to use a C2C or E2C router. Configuration of the ATM is quick. And you do not need to configure the C2C or E2C router itself; configuration of the C2C or E2C is automatic, supporting its connection to one or two ATMs. Your ATM can connect to one of the following routers:

- **The C2C:** This router has an RJ11 analog modem port and an Ethernet port. It can support one or two ATMs at the same time: one ATM that uses a dial-up connection to reach the ATM host, and/or one ATM that uses an IP connection to reach the ATM host.
- **The E2C:** This router has a single Ethernet port. It can support one ATM that uses an IP connection to reach the ATM host.

The shipment includes the C2C chassis or the E2C chassis, an antenna (in various styles), and an AC power cord (Figure 1-1). Attach the antenna to a cellular port on the back of the C2C or E2C router (Figure 1-2). Then plug the router's AC power cord into an AC power outlet, and wait for the router's wireless card to be activated in the wireless network.

Note: When wireless activation is complete, the Cellular LED on the front of the router should blink 1 to 5 times (to indicate signal strength), followed by a long blink (to indicate activation); then the blinking cycle should repeat. If you do not see that LED pattern, contact your wireless carrier.

Figure 1-1. C2C or E2C Chassis, Antenna, AC Power Cord

Figure 1-2. Attaching the Antenna to the C2C or E2C

1.1 Configuring an ATM to Use a Dial-Up Connection to the C2C

When you connect the C2C router's analog modem port (Figure 1-3) to an ATM, the C2C initiates communication. The C2C automatically adjusts to the connection specifications the ATM needs.

Figure 1-3. RJ11 Modem Port on Back of C2C

After you connect the C2C's modem port to the ATM, and connect the C2C to an AC power outlet and wait for the C2C's wireless card to be activated, you can configure the ATM to dial into the C2C.

1. Log into your ATM as administrator. Navigate to the ATM screen for host telephone numbers.
2. Enter the host's principal and secondary numbers. Use the information in [Table 1-1](#) (on page 4). If your ATM model can use alternate numbers to dial the host, enter those numbers, too.
