Religious Freedom and Religious Pluralism in Africa Pieter Coertzen, M Christian Green, Len Hansen, 2016-05-22 Africa continues to be a region with strong commitments to religious freedom and religious pluralism. These however are rarely mere facts on the ground; they are legal, political, social and theological projects that require considerable effort to realise. This volume, compiling the proceedings of the third annual conference of the African Consortium for Law and Religion Studies, focuses on various issues which vastly effect the understanding of religious pluralism in Africa. These include amongst others religious freedom as a human right, the importance of managing religious pluralism and the permissibility of religious practice and observance in South African public schools. **Focus On: 100 Most Popular Expatriate Footballers in Spain** Wikipedia contributors, **Soft Power on Hard Problems** Ajit Maan, Amar Cheema, 2016-11-15 The authors of this book are uniquely qualified to analyze the contemporary security landscape and promote necessary and pressing change. Each is a thought leader in his or her field. Four out of six authors are seasoned military professionals who share the view that the over reliance on kinetic approaches over influence operations account for some of the failures of nations against extremists. Combined with civilian academic leadership, this book is a practice in military civics. This collection of international perspectives taken together challenge commonly held assumptions and outmoded paradigms of engagement. In tribute to Co Editor Amar Cheema, Brigadier General R. We wish to dedicate this collaborative effort, arguing for a more profitable approach to ending and pre-empting conflict as a fitting living tribute to our Dear Friend, Colleague and Co Editor Brig. Amar Cheema, the consummate Soldier, Scholar and Gentleman. Brig. Cheema embodied the concept of no one appreciates peace and stability as much as a Soldier. Editing and Co-authoring our book focused on using all elements of National Power to achieve and sustain stability is an apt legacy for our Dear Friend. *The Power of the God Who Can't* Russ Dean, 2023-10-31 In a world that values power above all else, we need to rethink God. It's not just better athletes and bigger engines, but weapons of mass destruction, assault rifles, lethal drugs. Our obsession with stronger, faster, more and bigger everything is killing us, and at the top of this power pyramid, an all-powerful God validates it all. For those who want a theology justifying the power game in all its forms, omnipotence is the perfect pretext, but for a growing segment of our modern scientific world, the notion of an all-controlling deity sounds increasingly superstitious and tribalistic. People of faith must do better. Our world needs a God whose nature is love, not all-controlling power. That God, the God who can't, is even more powerful. The survival of the world, even the future of God, may depend on us learning to say God always does everything God can do. **Military Thought of Asia** Kaushik Roy, 2020-11-04 Military Thought of Asia challenges the assertion that the generation of rational, secular ideas about the conduct of warfare is the preserve of the West, by analysing the history of ideas of warfare in Asia from the ancient period to the present. The volume takes a transcontinental and comparative approach to provide a broad overview of the evolution of military thought in Asia. The military traditions and theories which have emerged

in different parts of Eurasia throughout history are products of geopolitics and unique to the different regions The book considers the systematic and tight representation of ideas by famous figures including Kautlya and Sun Tzu At the same time it also highlights publications on military affairs by small men like mid ranking officers and scattered ideas regarding the origin nature and societal impact of organised violence present in miscellaneous sources like coins inscriptions paintings and fictional literature In so doing the book fills a historiographical gap in scholarship on military thought which marginalises Asia to the part of cameo and historicises the evolution of theory and the praxis of warfare The volume shows that the East has a long unbroken tradition of conceptualising war and its place in society from the Classical Era to the Information Age It is essential reading for those interested in the evolution of military thought throughout history particularly in Asia

*Identity in a Secular Age* Fern Elsdon-Baker,Bernard Lightman,2020-09-15 Although historians have suggested for some time that we move away from the assumption of a necessary clash between science and religion the conflict narrative persists in contemporary discourse But why And how do we really know what people actually think about evolutionary science let alone the many and varied ways in which it might relate to individual belief In this multidisciplinary volume experts in history and philosophy of science oral history sociology of religion social psychology and science communication and public engagement look beyond two warring systems of thought They consider a far more complex multifaceted and distinctly more interesting picture of how differing groups along a spectrum of worldviews including atheistic agnostic and faith groups relate to and form the ongoing narrative of a necessary clash between evolution and faith
