**Joint Volumes of Papers Presented to the Legislative Council and Legislative Assembly** New South Wales. Parliament, 1926 Includes various departmental reports and reports of commissions Cf Gregory Serial publications of foreign governments 1815 1931 *Labour in the Suburbs* Michael Tichelar, 2023-05-04 This book is the first comprehensive economic social and political study of the London suburb of Croydon from 1900 up to the present day One of the largest London boroughs Croydon has always been a mixed residential suburb mainly private but with some municipal housing which has strongly influenced the nature of its political representation It was never just an affluent middle class suburb or bourgeoisie utopia as suggested by traditional definitions of suburbia and in popular imagination In economic terms it was also an industrial suburb after 1918 It was then transformed into a vibrant post industrial service economy following rapid deindustrialisation and remarkable commercial and office redevelopment after 1960 In this respect Croydon is also an ex industrial suburb similar to many other outer London areas and other peripheral metropolitan areas Croydon s civic identity as a previously independent town on the outskirts of London remains unresolved to this day even as its political representatives seek to redefine the borough as a more independent Edge City Author Michael Tichelar examines this suburb by looking at the suburban development of London the changing politics of Croydon and policy issues during the twentieth century *Labour in the Suburbs* will be of interest to the general reader as well as students of modern British history with special interests in electoral sociology political representation and suburbanisation It provides a template against which to measure the process of suburbanisation in the UK and internationally *Citizens in Motion* Elaine Lynn-Ee Ho, 2018-12-18 More than 35 million Chinese people live outside China but this population is far from homogenous and its multifaceted national affiliations require careful theorization This book unravels the multiple shifting paths of global migration in Chinese society today challenging a unilinear view of migration by presenting emigration immigration and re migration trajectories that are occurring continually and simultaneously Drawing on interviews and ethnographic observations conducted in China Canada Singapore and the China Myanmar border Elaine Lynn Ee Ho takes the geographical space of China as the starting point from which to consider complex patterns of migration that shape nation building and citizenship both in origin and destination countries She uniquely brings together various migration experiences and national contexts under the same analytical framework to create a rich portrait of the diversity of contemporary Chinese migration processes By examining the convergence of multiple migration pathways across one geographical region over time Ho offers alternative approaches to studying migration migrant experience and citizenship thus setting the stage for future scholarship **The Place of Stone** Douglas Hunter, 2017-08-04 Claimed by many to be the most frequently documented artifact in American archeology Dighton Rock is a forty ton boulder covered in petroglyphs in southern Massachusetts First noted by New England colonists in 1680 the rock s markings have been debated endlessly by scholars and everyday people alike on both sides of the Atlantic The

glyphs have been erroneously assigned to an array of non Indigenous cultures Norsemen Egyptians Lost Tribes of Israel vanished Portuguese explorers and even a prince from Atlantis In this fascinating story rich in personalities and memorable characters Douglas Hunter uses Dighton Rock to reveal the long complex history of colonization American archaeology and the conceptualization of Indigenous people Hunter argues that misinterpretations of the rock s markings share common motivations and have erased Indigenous people not only from their own history but from the landscape He shows how Dighton Rock for centuries drove ideas about the original peopling of the Americas including Bering Strait migration scenarios and the identity of the Mound Builders He argues the debates over Dighton Rock have served to answer two questions Who belongs in America and to whom does America belong

**Unstable Ground** Rosalind C. Morris, 2025-03-04

What has gold done to people What has it made them do The Witwatersrand in South Africa once home to the world s richest goldfields is today scattered with abandoned mines into which informal miners known as zama zamas venture in an illicit often deadly search for ore Based on field research conducted across more than twenty five years around these mines Unstable Ground reveals the worlds that gold made possible and gold s profound costs for those who have lived in its shadow and dreamt of its transformative power From the vantage point of the closure of South Africa s gold mines Rosalind C Morris reconsiders their histories beginning in the present and descending into the pasts that shaped them Anchored in evocative descriptions of mining in the ruins this book explores the social worlds built on gold and the lives that were remade and sometimes undone by the industry over a century and a half Viewing this industry from its margins against the backdrop of the cyanide revolution the gold standard s demise and recurrent sinkholes as well as the insurrectionary protests and violence that continue to this day it recasts the history of South Africa and the incomplete effort to overcome apartheid amid the transformations of the global economy In writing that is by turns immersive incisive and poetic Morris unearths a history that was born of imperial aspiration and that persists as a speculative mirage Interweaving ethnography history personal testimony and political thought with striking readings of South African literary texts Unstable Ground is a work of extraordinary ambition and depth
