decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again 24 Years UPSC IAS/ IPS Prelims Topic-wise Solved Papers 1 & 2 (1995-2018) 9th Edition

Michael Feener,2016-04-06 Providing a detailed and comparative assessment of the humanitarian responses to a series of major disasters in Asia over the past two decades including massive earthquakes volcanic eruptions and tsunamis this book explores complex and changing understandings and practices of relief recovery and reconstruction These critical investigations raise questions about the position and responsibilities of a growing range of stakeholders and provide in depth explorations of the ways in which local communities are transformed on multiple levels not only by the impact of disaster events but also by the experiences of rebuilding This timely volume highlights how the experiences of Asia can contribute towards post disaster responses globally to safeguard future communities and reduce vulnerabilities This is a valuable resource for academic researchers interested in post disaster transformations and development studies practitioners in NGOs and government officials dealing with disaster response and disaster risk reduction *The End of Public Schools* David W. Hursh,2015-10-16 The End of Public Schools analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public **The Oxford Handbook of Entrepreneurship and Collaboration** Jeffrey J. Reuer,Sharon F. Matusik,Jessica Jones,2019-08-08 Organizational collaboration has played an important role in the field of strategic management in recent decades including influential works on joint ventures networks and social capital Likewise the field of entrepreneurship has long recognized the value of collaboration since young ventures often don t have the latitude to own or control all of the resources they need Rather the conditions of uncertainty and resource scarcity inherent in entrepreneurship push these ventures to creatively access resources often through partnerships and collaborations that vary in formality Though the importance of collaboration to entrepreneurship might seem apparent research on it is distributed across multiple contexts theoretical perspectives and units of analysis The Oxford Handbook of Entrepreneurship and Collaboration is a comprehensive volume that addresses the most important topics related to collaboration and connects them to unique challenges and opportunities related to entrepreneurship Bringing together leading scholars from both areas the volume takes stock of the current literature and aims to advance this body of research by highlighting the role that collaboration plays in value creation resource acquisition and the development of

entrepreneurial ventures *Policy-Making in the GCC* Neil Quilliam, Mark C. Thompson, 2017-09-11 The GCC is a major player in the post 2011 reordering of the Middle East Despite the rise in prominence of individual Gulf states especially Kuwait Qatar Saudi Arabia and the United Arab Emirates and the growth of the GCC as a collective entity surprisingly little attention has been paid to the actual mechanics of policy making in the region This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states The research coincides with two key developments that have given institutions new importance in the policy process the emergence of a new generation of leaders in the Gulf and the era of low oil prices Both developments along with dramatic demographic change have compelled state and citizens to re evaluate the nature of the social contract that binds them together Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such change and informing policy The book shows how academic social and economic institutions are responding to the increasingly complex process of decision making where citizens demand better services and further empowerment and states are obliged to seek wider counsel although wanting to retain ultimate authority With contributions from both academics and practitioners this book will be highly relevant for researchers and policymakers alike The SAGE Encyclopedia of the Internet Barney Warf, 2018-05-16 The Internet needs no introduction and its significance today can hardly be exaggerated Today more people are more connected technologically to one another than at any other time in human existence For a large share of the world's people the Internet text messaging and various other forms of digital social media such as Facebook have become thoroughly woven into the routines and rhythms of daily life The Internet has transformed how we seek information communicate entertain ourselves find partners and increasingly it shapes our notions of identity and community The SAGE Encyclopedia of the Internet addresses the many related topics pertaining to cyberspace email the World Wide Web and social media Entries will range from popular topics such as Alibaba and YouTube to important current controversies such as Net neutrality and cyberterrorism The goal of the encyclopedia is to provide the most comprehensive collection of authoritative entries on the Internet available written in a style accessible to academic and non academic audiences alike *26 Years UPSC IAS/ IPS Prelims Topic-wise Solved Papers 1 & 2 (1995 - 2020) 11th Edition* Disha Experts, 2020-01-01 **Bottleneckers** William Mellor, Dick M. Carpenter II, 2016-12-13 Bottleneckers are people who advocate for the creation or perpetuation of government regulation particularly an occupational license to restrict entry into his or her occupation thereby accruing an economic advantage without providing a benefit to consumers The Left Right and Center all hate them powerful special interests that use government power for their own private benefit In an era when the Left hates fat cats and the Right despises crony capitalists now there is an artful and memorable one word pejorative they can both get behind bottleneckers A bottleneckers is anyone who uses government power to limit competition and thereby reap monopoly profits and other benefits Bottleneckers work with politicians to constrict competition entrepreneurial innovation and opportunity They

thereby limit consumer choice drive up consumer prices and they support politicians who willingly overstep the constitutional limits of their powers to create maintain and expand these anticompetitive bottlenecks The Institute for Justice's new book Bottleneckers coins a new word in the American lexicon and provides a rich history and well researched examples of bottleneckers in one occupation after another from alcohol distributors to taxicab cartels pointing the way to positive reforms
