most things, and it is not unusual that we believe in a more progressive culture, but we have to be realistic. (David) Warner (1994:200) stated that "it is a truism in a market economy and in a society that we live in that the language for business, and the point of view, has really not changed a great deal in the past few decades. Basic questions remain as they have for two centuries or so: business, including questions such as 'What's the bottom line?' and 'What's in it for me?' and 'What's the market value?' have not changed, and they are not likely to. The market value of the company, in fact, is a negative number, although it is still positive when you add up the value of the stock and the value of the company's assets and subtract the value of the company's liabilities." (Warner, 1994:200)
