

Honeywell®**ULTRASONIC HUMIDIFIER****Model HUT-102 Series****IMPORTANT SAFETY INSTRUCTIONS**

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

1. Read all instructions before using this humidifier.
2. Always place this humidifier on a firm, flat and level surface. This humidifier may not work properly on an uneven surface.
3. Place this humidifier in an area where it is not accessible to children.
4. Do not place the humidifier near any heat sources such as stoves, radiators, and heaters.
5. Do not use the humidifier outdoors.
6. Before using the humidifier, check the power cord for any signs of damage. If the cord is found to be damaged, **DO NOT USE** and return the humidifier to the manufacturer under the warranty agreement for repair.
7. This appliance has a polarized plug (one blade is wider than the other). To reduce the risk of shock, this plug is intended to fit only one way in a polarized outlet. If the plug does not fit securely in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. **DO NOT** attempt to defeat this safety feature.
8. To disconnect the humidifier, first turn controls to the OFF position, then grip the plug and pull it from the wall outlet. Never pull by the cord.
9. A loose fit between the AC outlet (receptacle) and plug may cause overheating and a distortion of the plug. Contact a qualified electrician to replace loose or worn outlet.
10. The humidifier should always be unplugged and emptied when not in operation or while being serviced or cleaned.
11. Never tilt or attempt to move the humidifier while it is operating or filled with water. **UNPLUG** the humidifier before moving.
12. This humidifier requires regular cleaning. Refer to the **CLEANING** instructions provided. Never clean the humidifier in any manner other than as instructed in this manual.
13. Do not direct moisture flow directly at individuals, walls or furniture.
14. When a humidifier is used in a closed room or small rooms, check periodically for proper ventilation, as excessive humidity can cause condensation stains on walls.
15. Turn the humidifier OFF if you notice moisture on the inside of your windows. For proper humidity reading use a hygrometer, which is available in many hardware and department stores, or by ordering one from the manufacturer.
16. Do not touch the nebulizer while the unit is plugged in as burns could result.
17. **SAVE THESE INSTRUCTIONS**
