Dimension™ Upright

The Dimension™ Upright series of cleaners was first introduced in mid-1994 as replacements for Legacy models. Fig. 1.

All models were introduced initially with:

- Molded, integral handle grips
- On/Off switch on the front of the upper handle
- Two brush agitator (Replaceable Roll Sleeve)
- Extra bag and belt storage on the unit Fig. 2
- One 12v headlight
- Hard bag enclosure
- One speed motor
- Stair cleaning handle
- Four position carpet height adjustment Fig. 3
- Top tool conversion
- Triple stretch hose
- Tool storage on the front of the unit
- One molded extension wand
- Type Z microfiltration throw away bags

Some models have a "check bag" indicator on the outside of the bag door. Fig. 4

The cleaning tool hose attaches to the cleaner through the top of the hood and CAN stay attached at all times.

When using cleaning tools, the nozzle control must be in the #5 cleaning tools position. Fig. 5

With the nozzle control in the number 5 position, a valve gate in the main body closes and blocks all air flow from the agitator cavity therefore diverting it to the hose.

Set on carpet, positions 1-4, the gate valve is opened allowing air to flow from the agitator cavity to the motor. Fig. 6

To ensure maximum efficiency in the 4 floor cleaning positions both hose ends must be firmly connected to the cleaner base and tool rack Fig. 7 or the hose removed completely and the tool door closed.

Refer to the Hoover Service Manual for repair procedures and the Microfiche Parts Catalog – light brown header – for spare parts.
