DeVita, Ken Hillman, Rinaldo Bellomo, 2007-07-03 Why Critical Care Evolved METs In early 2004 when Dr Michael DeVita informed me that he was considering a textbook on the new concept of Medical Emergency Teams METs I was surprised At Presbyterian University Hospital in Pittsburgh we introduced this idea some 15 years ago but did not think it was revolutionary enough to publish This even though our fellows in critical care medicine training were all involved and informed about the importance of Condition C Crisis as it was called to distinguish it from Condition A Arrest We thought it absurd to intervene only after cardiac arrest had occurred because most cases showed prior deterioration and cardiac arrest could be prevented with rapid team work to correct precluding problems The above thoughts were logical in Pittsburgh where the legendary Dr Peter Safar had been working since the late 1950s on improving current resuscitation techniques first ventilation victims of apneic from drowning treatment of smoke inhalation and so on This was followed by external cardiac compression upon demonstration of its efficiency in cases of unexpected sudden cardiac arrest Dr Safar devoted his entire professional life to improvement of cardiopulmonary resuscitation He and many others emphasized the importance of getting the CPR team to the hospital victims of cardiac arrest as quickly as possible *Advances in Emergency Treatment Research and Application: 2011 Edition*, 2012-01-09 *Advances in Emergency Treatment Research and Application 2011 Edition* is a ScholarlyBrief that delivers timely authoritative comprehensive and specialized information about Emergency Treatment in a concise format The editors have built *Advances in Emergency Treatment Research and Application 2011 Edition* on the vast information databases of ScholarlyNews You can expect the information about Emergency Treatment in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of *Advances in Emergency Treatment Research and Application 2011 Edition* has been produced by the world's leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>
