around the world are designed to end one point in time They communicate an urgent warning to everyone alive today  
Complex bronze and gold clocks with multiple dials are found in museums around the world Why they have such advanced  
intricacy has stumped scientists for hundreds of years This book reveals why the ancients built so many pyramids  
observatories as well as those complex gold and bronze clocks with more than one dial It surprised me greatly to discover  
that their various complex designs in one way or another converge on 21 December 2012 It amazes me that ancient cultures  
separated by thousands of miles of geography and thousands of years in chronology agree so precisely in the cyclical nature  
of time history and prophecy which is history written in advance The most famous example is the Mayan Aztec calendar  
which ends its 25 626 year cycle on that momentous date Some researchers have also found 21 December 2012 in what is  
called the Bible Code Using very different research methods I discovered it in the Bible's book of Revelation and Daniel's  
prophecies It is one of the most important dates in the plan of God for all humanity     [Think Perl 6](#) Laurent Rosenfeld,Allen
