 Routledge Handbook on Spaces of Urban Politics provides a comprehensive statement and reference point for urban politics
 The scope of this handbook s coverage and contributions engages with and reflects upon the most important innovative and
 recent critical developments to the interdisciplinary field of urban politics drawing upon a range of examples from within and
 across the Global North and Global South This handbook is organized into nine interrelated sections with an introductory
 chapter setting out the rationale aims and structure of the Handbook and short introductory commentaries at the beginning
 of each part It questions the eliding of urban politics into the politics of the city reconsidering the usefulness of the
 distinction between old and new urban politics considering issues of class gender race and the ways in which they intersect
 appear and reappear in matters of urban politics how best to theorize the roles of capital the state and other actors such as
 social movements in the production of the city and finally issues of doing urban political research The various chapters
 explore the issues of urban politics of economic development environment and nature in the city governance and planning
 the politics of labour as well as living spaces The concluding sections of the Handbook examine the politics over alternative
 visions of cities of the future and provide concluding discussions and reflections particularly on the futures for urban politics
 in an increasingly global and multidisciplinary context With over forty five contributions from leading international scholars
 in the field this handbook provides critical reviews and appraisals of current conceptual and theoretical approaches and
 future developments in urban politics It is a key reference to all researchers and policy makers with an interest in urban
 politics *Moody's Manual of Investments, American and Foreign; Banks, Insurance Companies, Investment Trusts, Real
