Logistics Of A Criminal:

Organized Crime Klaus von Lampe, 2015-07-16 *Organized Crime Analyzing Illegal Activities Criminal Structures and Extra legal Governance* provides a systematic overview of the processes and structures commonly labeled organized crime drawing on the pertinent empirical and theoretical literature primarily from North America Europe and Australia The main emphasis is placed on a comprehensive classificatory scheme that highlights underlying patterns and dynamics rather than particular historical manifestations of organized crime Esteemed author Klaus von Lampe strategically breaks the book down into three key dimensions 1 illegal activities 2 patterns of interpersonal relations that are directly or indirectly supporting these illegal activities and 3 overarching illegal power structures that regulate and control these illegal activities and also extend their influence into the legal spheres of society Within this framework numerous case studies and topical issues from a variety of countries illustrate meaningful application of the conceptual and theoretical discussion *Air Force Journal of Logistics* ,2000 **The 1984 Guide to the Evaluation of Educational Experiences in the Armed Services** American Council on Education,1984 *The 1980 Guide to the Evaluation of Educational Experiences in the Armed Services: Army* American Council on Education,1980 **Today's Logistics** , **Air Force journal of logistics: vol24_no1** , *The Criminal Investigation Command* United States. Army Criminal Investigation Command. Information Office,1977

Entrepreneurship and Organised Crime Petter Gottschalk, 2009-01-01 *Entrepreneurship and Organised Crime* provides a much needed and original overview of the boundary between legal and illegal entrepreneurship It will appeal to a wide variety of readers interested in new perspectives on entrepreneurship The text is clearly structured and systematically explores the basics of organised crime as an entrepreneurial business enterprise Petter Gottschalk draws upon several theoretical strands including organisational sociological managerial historical and practical perspectives in providing an insight into organised crime activity Julia Davidson Kingston University UK *Entrepreneurship and Organised Crime* tarnishes the conventional clean and wholesome depiction of entrepreneurs by bringing to life the lived and messy realities of entrepreneurs who operate illegal businesses Moving beyond the standard textbook positive and celebratory portrayal of entrepreneurs this volume addresses in a highly readable manner both the entrepreneurial aspects of criminal endeavour as well as the criminal aspects of entrepreneurial endeavour It is an essential and compelling read for scholars of entrepreneurship and criminology Colin C Williams University of Sheffield UK *Entrepreneurship and Organised Crime* provides a fresh and realistic insight into the problem of organised crime activity and the role of entrepreneurs in illegal business Petter Gottschalk takes a close look at how some entrepreneurs choose to develop criminal business enterprises Stage models for criminal entrepreneurs are presented and entrepreneurial leadership and management are discussed This book illustrates how so many issues for entrepreneurs and entrepreneurship are similar in legal and illegal business At the same time all the cases in the book show how different many of the individual criminal entrepreneurs are In sum this book

provides a pragmatic view of another kind of entrepreneurship not frequently discussed in a neutral way This book will be warmly welcomed by scholars and researchers looking for a different perspective of entrepreneurship or interested in criminology This will also be a good reference tool for students at police academies
