Black Code Ronald J. Deibert, 2013-05-21

Cyberspace is all around us We depend on it for everything we do We have reengineered our business governance and social relations around a planetary network unlike any before it But there are dangers looming and malign forces are threatening to transform this extraordinary domain In *Black Code* Ronald J Deibert a

leading expert on digital technology security and human rights lifts the lid on cyberspace and shows what's at stake for Internet users and citizens As cyberspace develops in unprecedented ways powerful agents are scrambling for control Predatory cyber criminal gangs such as Koobface have made social media their stalking ground The discovery of Stuxnet a computer worm reportedly developed by Israel and the United States and aimed at Iran's nuclear facilities showed that state cyberwar is now a very real possibility Governments and corporations are in collusion and are setting the rules of the road behind closed doors This is not the way it was supposed to be The Internet's original promise of a global commons of shared knowledge and communications is now under threat Drawing on the first hand experiences of one of the most important protagonists in the battle the Citizen Lab and its global network of frontline researchers who have spent more than a decade cracking cyber espionage rings and uncovering attacks on citizens and NGOs worldwide Black Code takes readers on a fascinating journey into the battle for cyberspace Thought provoking compelling and sometimes frightening it is a wakeup call to citizens who have come to take the Internet for granted Cyberspace is ours it is what we make of it Deibert argues and we need to act now before it slips through our grasp *The Little Data Book on Information and Communication Technology* 2010 World Bank, 2010-06-03 This Little Data Book presents at a glance tables for over 140 economies showing the most recent national data on key indicators of information and communications technology ICT including access quality affordability efficiency sustainability and applications **Mobile Phones and Development in Africa** Jenny C. Aker, Joël Cariolle, 2023-11-30 This book focuses on the impact of information technology on the lives and livelihoods of rural households in sub Saharan Africa where simple mobile phones have leapfrogged traditional communication and financial technologies and thus arguably offer some of the greatest potential for development Drawing on primary and secondary research from a variety of disciplines the authors examine the evolution of mobile phone coverage and adoption in sub Saharan Africa over the past two decades before exploring the main channels through which mobile phones can affect development They then review initiatives on digitizing development and evaluate empirical evidence on their impact The book argues that digital has yet to live up to the hype ending with a set of questions that stakeholders should ask and answer when using digital technology for promoting development
