Meet the GRE

The Test Breakdown

The GRE consists of two 75-minute Reasoning sections, one Verbal Reasoning section and one Quantitative section, which can be either Verbal or Quantitative. In addition, there are two short essay writing assignments in the Analytical Writing Assessment (AWA) section of the GRE. The experimental section was removed from your score but the test is about 100% in the real deal. With the overall GRE Verbal and Quantitative scores can range from 130 to 170. The sections are scored from 0 to 17 in four-point increments.

Number of questions and time limit

The GRE Quantitative section contains twenty questions each. Your 30-minute time limit includes an additional five minutes for the Verbal section. The number of questions varies, but you'll have just about 15 minutes to complete these sections.

GRE Quantitative overview

The GRE Quantitative section consists of approximately 20 questions. The questions are divided into two categories: quantitative and non-quantitative. Quantitative questions include: arithmetic, algebra, geometry, and statistics. Non-quantitative questions include: data interpretation, word problems, and logic. The GRE Quantitative section will be completed during the 30-minute time limit.
