Curriculum-based Assessment Carroll J. Jones, 2008 Although curriculum based assessment CBA has been on the horizon for a number of years there has been a need for a practical classroom based approach for its implementation This second edition is a major revision and update that offers practical and specific methods for developing and using CBAs in an educational setting It gives educators a highly specific step by step approach to building CBAs in the area of reading word recognition reading comprehension content reading mathematics and written expression Each chapter offers detailed easy to read and easy to follow instructions for the assessment construction process To further clarify the process extensive examples are given in table format A unique feature of the text is the manner in which the author illustrates the principles of CBA by providing a case study on one student which is referred to in each chapter Its formative assessment approach gives the teacher additional detailed information about students OCO performance which in turn should guide the type of instruction designed and implemented ultimately leading to higher performance on summative outcome measures Additionally detailed information is provided on subject area CBA construction the creation and implementation of a district wide CBA system for response to intervention and how to use IDEA S response to intervention in student evaluation *Sample Math Level 1 Teacher's Manual* Janice L. Semple, Linda Lee, 2005 The Level 1 Teacher s Manual focuses on addition while developing many related skills Each of the 52 lessons begins with a measurable objective and includes a clear teaching activity numerous optional games activities and ideas for teacher made supplemental materials Added sections such as special problems and older students assist the educator in adapting the program to the spectrum of learning challenges Available Fall 2005 the Second Edition Level One Teacher s Manual has been revised by the original author Letter to the Reader Semple Math is a complete basic skills mathematics program for students of all ages and all learning abilities We use a carefully ordered sequence of associative mnemonics in order to embed an accurate understanding of math concepts and skills in the long term memory of our students hence the expression Simply Unforgettable We do not ask students to memorize math facts through repetition We do not use learning by rote methods that teach only to a student s short term memory We have never encountered a math program or a supplemental material based entirely on learning by association nor have we ever encountered a program that has enjoyed our level of success with all students across the learning spectrum Now in its 25th year the program has undergone both a business reorganization and a long awaited revision of the Level One Teacher s Manual by the original author Jan Semple Semple Math materials were formerly distributed by Stevenson Learning Skills Inc Moving forward Semple Math Inc a new company founded by members of the Semple family will actively market our program while safeguarding the integrity of this tried and true process For more information please visit us at www.STEMPLEMATH.COM

semplemath.com William W Semple President and Co founder Semple Math Inc *Word Recognition in Beginning Literacy* Jamie L. Metsala, Linnea C. Ehri, 2013-06-17 This edited volume grew out of a conference that brought together beginning reading experts from the fields of education and the psychology of reading and reading disabilities so that they could present and discuss their research findings and theories about how children learn to read words instructional contexts that facilitate this learning background experiences prior to formal schooling that contribute and sources of difficulty in disabled readers The chapters bring a variety of perspectives to bear on a single cluster of problems involving the acquisition of word reading ability It is the editors keen hope that the insights and findings of the research reported here will influence and become incorporated into the development of practicable classroom based instructional programs that succeed in improving children's ability to become skilled readers Furthermore they hope that these insights and findings will become incorporated into the working knowledge that teachers apply when they teach their students to read and into further research on reading acquisition
