

PROJECT: KATHARINE AND HER FRIENDS

Introduction: Katharine and Her Friends

Katharine and her friends are a group of young people who are interested in the environment and in making a difference in their community. They are looking for ways to make their world a better place.

Objectives

The main objective of this project is to help Katharine and her friends learn more about the environment and how they can make a difference. The project will also help them to develop their leadership skills and to work together as a team.

The project will be carried out in three main stages. In the first stage, Katharine and her friends will learn more about the environment and the problems it faces. In the second stage, they will develop a plan of action and start to implement it. In the third stage, they will evaluate their progress and make any necessary changes.

The project will be carried out over a period of six weeks. During this time, Katharine and her friends will meet regularly to discuss their progress and to plan their next steps. They will also be encouraged to share their ideas and experiences with other young people in their community.

The project will be evaluated at the end of the six-week period. Katharine and her friends will be asked to reflect on what they have learned and to share their thoughts on the project with the teacher. The teacher will also provide feedback on their progress and on their leadership skills.
