Danielle Sarver Coombs, Bob Batchelor, 2014-01-15 For the last 150 years advertising has created a consumer culture in the United States shaping every facet of American life from what we eat and drink to the clothes we wear and the cars we drive In the United States advertising has carved out an essential place in American culture and advertising messages undoubtedly play a significant role in determining how people interpret the world around them This three volume set examines the myriad ways that advertising has influenced many aspects of 20th century American society such as popular culture politics and the economy Advertising not only played a critical role in selling goods to an eager public but it also served to establish the now world renowned consumer culture of our country and fuel the notion of the American dream The collection spotlights the most important advertising campaigns brands and companies in American history from the late 1800s to modern day Each fact driven essay provides insight and in depth analysis that general readers will find fascinating as well as historical details and contextual nuance students and researchers will greatly appreciate These volumes demonstrate why advertising is absolutely necessary not only for companies behind the messaging but also in defining what it means to be an American

Branded Bodies, Rhetoric, and the Neoliberal Nation-State Jennifer Wingard, 2012-11-29 Branded Bodies Rhetoric and the Neoliberal Nation State by Dr Jennifer Wingard explores how neoliberal economics has affected the rhetoric of the media and politics and how in very direct material ways it harms the bodies of some of the United States most vulnerable occupants The book is written at a moment when the promise of the liberal nation state in which the government purports to care for its citizens through social welfare programs financed by state funds is eroding Currently state policies are defined by

neoliberal governmentality a form which privileges privatization and individual personal responsibility Instead of the promise of citizenship and the protections that come with it or the American Dream to use a more common euphemism the state uses certain bodies that will never be accepted as citizens as an underclass in service of capital think Guest Worker Programs And those underclassed bodies are identified through branding In order to demonstrate just how damaging branding has become Wingard offers readings of key pieces of legislation on immigration and GLBT rights and their media reception from the past twenty years By showing how brands are assembled to create affective threats Branded Bodies Rhetoric and the Neoliberal Nation State articulates how dangerous the branding of bodies has become and offers rhetorical strategies that can repair the damage to bodies caused by political branding Branded Bodies then is an intervention into the rhetorical practices of the nation state It attempts to clarify how the nation state uses brands to forward its claims of equality and freedom all the while condemning those who do not fit in to particular categories valued by the neoliberal state **Do Good Well** Nina

Vasan, Jennifer Przybylo, 2013-03-14 Written with a fresh voice and a dash of humor Do Good Well is an exciting and readily adaptable guide to social innovation that not only captures the entrepreneurial and creative spirit of our time but also harnesses the insights wisdom and down to earth experience of today's most accomplished young leaders Do Good Well offers a winning combination of theory anecdote and application giving you the framework you need to make an impact next door or across the world The authors present a 12 step process that empowers readers to act on their passions and concerns This process is organized into three parts Do What Works Work Together and Make It Last They offer specific guidance for following the process through practical and prescriptive actions such building organizations joining boards applying for funding creating partnerships with organizations that have similar goals organizing conferences and publicizing events The book incorporates accounts of young people in action and always reinforces the message that social innovation can be a lifestyle made up of efforts small and large It is not an all or nothing proposition and anyone can affect social change
