People-Centered Approaches Toward the Internationalization of Higher Education Malfatti, Gabrielle, 2020-08-14

Traditionally internationalization efforts in higher education have been rooted in neo liberal transactional models that restrict or compromise the space for meaningful exchanges of socio cultural capital Recently researchers and practitioners in the international education field have taken issue with programming and practices in education abroad international student recruitment and internationalization of the curricula that perpetuate systems of imbalance fossilize prejudices adversely impact host communities abroad and limit student learning to the confines of the Western epistemological traditions As a result scholars and practitioners are creating new paradigms for engagement and exchange People Centered Approaches Toward the Internationalization of Higher Education is an essential scholarly publication that examines the praxis of internationalization in higher education with empirical research and relevant models of practice that approach the topic critically and responsibly The book innovates and re humanizes internationalization efforts including education abroad international recruitment international scholar and student services and internationalization of curriculum by focusing on the people and communities touched intentionally and unintentionally by said efforts It is ideal for higher education faculty education professionals academic advisors academicians administrators curriculum designers researchers and students

allocation However most off the shelf human resource or roster planning software are usually catered for local computer installation requirement Most are not fully transparent in the sense that they are designed for manager use instead of providing online shared access for other staff Lacking in flexibility of customization ready made software s is also unlikely to suit the actual need of your unit In addition the cost of the afore mentioned software s could prove to be too exorbitant for a small department in terms of justifying budget planning All these pre existent issues and shortcomings have inspired me to find a solution thus developing a DIY system to help managers departmental heads or anyone involved in tackling this managerial challenge became my utmost priority In the following chapters I will walk you through the steps in how to create an online leave planner which can be made accessible by members of your staff I hope you will find this book purposive concise and practical in bringing in benefits to you and your team
