League of Legends Guide to Game Mastery C M Balmus, 2021-10-12 Do you feel like you stopped getting better at League of Legends Are you hard stuck in Diamond or Iron Are you starting to become unsatisfied with your current performance in League of Legends Then Infinite Intelligence guided you to this book The author designed this guide to maximize one's performance putting emphasis on practical exercises and trackable results This little book breaks down the game into the core elements that have an impact in League of Legends and offers hands on the job action tasks at the end of every chapter to help you maximize your results and ultimately to master the game Observe track and improve with C M Balmus About the author C M Balmus has over 15 years of experience in the MOBA environment being part of the first early adopters of both Dota 1 League of Legends The burning desire to solve problems for others

backed up by over a decade and a half of trials and observations motivated him towards writing this relatively short guide in order to help all driven players to achieve game mastery Apex Legends Sequoia Rogers,2020-11-22 Do you want to become the best Apex Legends player This book is for you The Frontier War is over but the Frontier worlds were left barren causing the brave to relocate to the Outlands The Outlands are untouched by war and teeming with resources and opportunity But life is cheap here and danger lurks around every corner Its pioneers explorers and outlaws used to spend their lives locked in an endless power struggle now they settle their differences in the Apex Games a bloodsport where Legends from all corners of the Frontier compete for money fame and glory Pick your Legend and join forces with other players combining your unique skills to form the ultimate squad This book provides a great introduction to the battle royale game Apex Legends and it will teach you how to learn and play the game to get better at it This book is perfect for beginners who have never played the game or for gamers who are familiar with the game but want to improve **30 Days to Diamond** St Petr,2016-01-18 Before I tell you what 30 Days to Diamond is about let me tell you what it isn t This book is NOT the next 3 dollar booklet promising you all the tips and tricks nobody else knows Any book that makes such a claim is ridiculous misleading and a waste of time 30 Days to Diamond is 147 pages worth of specialized teaching produced by a Master Tier player on both EUW and EUNE servers It teaches all technical strategic and psychological aspects of the game from A to Z in a very unique and effective manner If there s anything I ve learned after mentoring over 60 silver and bronze players it s that anyone and I mean ANYONE has the potential to become a Diamond level player within a very short time even if still new to League In spite of all the information available online the majority of League s community still struggle to achieve their goals in Ranked Nowadays there are so many Twitch streams YouTube channels and websites dedicated to teaching the game and yet the results are just not there for the majority Improving from Silver to Gold is nice but this is so much less than what progress should look like for most Being a teacher in real life the question I got absorbed in was What prevents people from mastering the game to the level they want despite them having access to all the information they need We are talking about hundreds of thousands of players that play ranked That s a lot of people Why is it that so many folks may spend weeks and even months watching Challenger streams play League for 5 hours a day and still not improve at the rate they could This inefficiency is not due to the people playing the game or the information they learn from It all has to do with how effective learning takes place A person s ability to learn from a piece of information is enhanced only to the degree to which they can relate to it at that specific moment This is the factor that dictates how fast one improves over a period of time Here is an analogy If I were to pick two different gold 3 players for example one may assume that they are at a similar spot on the tree of game knowledge They are both gold 3 so they must be right No their spot on that tree is unique as is the combination of things they know and don t know it s just that the net result happens to be the same Depending on which leafs and branches of the tree they have if they were both to be traditionally taught the same thing in the same exact way the

result wouldn't be optimal for both. The key to overcoming those limitations is through teaching the game in the most relatable way by utilizing the functions of the left and right brain hemispheres SIMULTANEOUSLY through associations and other learning techniques. What most people don't realize is that their progress is not only limited by what they don't know but also the unconscious habits and pathways they've created and CONTINUE to create each time they play. Improving at the fastest rate is achieved by also following a daily practice routine that revolves around repeated behaviors that create the right habits while unlearning the wrong ones. Basically you transform as a player and it takes about a month. So here is my attempt to change things for the better and have a positive impact on the community. I wrote this book specifically for new and old players that struggle to reach Diamond. It's updated and relevant to the current Season 6. Everyone that learns from it should be able to reach Diamond within 30 days of practicing no matter what their starting point is. I stand behind my statement that ANY low elo player has the potential to get to Diamond in a short time when taught correctly. As far as the time commitment required playing 2-4 games a day and dedicating about an hour for the method described in Chapter 9 is plenty. The method is designed specifically for people with a job, school, other real-life activities who cannot dedicate 10 hours a day to League.
