Meaningful Homework For Kindergarten

Donna Tetreault

Meaningful Homework For Kindergarten:

The Case Against Homework Sara Bennett, Nancy Kalish, 2007-08-28 Does assigning fifty math problems accomplish any more than assigning five Is memorizing word lists the best way to increase vocabulary especially when it takes away from reading time And what is the real purpose behind those devilish dioramas The time our children spend doing homework has skyrocketed in recent years Parents spend countless hours cajoling their kids to complete such assignments often without considering whether or not they serve any worthwhile purpose Even many teachers are in the dark Only one of the hundreds the authors interviewed and surveyed had ever taken a course specifically on homework during training The truth according to Sara Bennett and Nancy Kalish is that there is almost no evidence that homework helps elementary school students achieve academic success and little evidence that it helps older students Yet the nightly burden is taking a serious toll on America s families It robs children of the sleep play and exercise time they need for proper physical emotional and neurological development And it is a hidden cause of the childhood obesity epidemic creating a nation of homework potatoes In *The Case Against Homework* Bennett and Kalish draw on academic research interviews with educators parents and kids and their own experience as parents and successful homework reformers to offer detailed advice to frustrated parents You ll find out which assignments advance learning and which are time wasters how to set priorities when your child comes home with an overstuffed backpack how to talk and write to teachers and school administrators in persuasive nonconfrontational ways and how to rally other parents to help restore balance in your children s lives Empowering practical and rigorously researched *The Case Against Homework* shows how too much work is having a negative effect on our children s achievement and development and gives us the tools and tactics we need to advocate for change Also available as an eBook

Clinician's Toolkit for Children's Behavioral Health Michele Knox,2020-01-06 Clinician s Toolkit for Children s Behavioral Health provides a wealth of clinical tools best practices and research based recommendations on the behavioral health of children Based on the current perspectives on behaviorism social cognitive theory and attachment theory the book reviews the evidence base on developmentally appropriate methods to promote and reinforce positive prosocial behaviors in children Each chapter covers the most recent evidence base on normal and atypical development treatment parameters best practices and how to most effectively address issues with families providing guidance on verbal or physical aggression punishment spirals and other ineffective or potentially harmful methods Evidence based best practices are outlined for addressing bedtime problems toilet training bullying behavior and victimization the relationship between somatic complaints anxiety and school refusal problematic use of screen media and more Provides a wealth of clinical guidance on treating behavioral problems in children Addresses toilet training bullying aggressive behavior sexual behavior and more Outlines how to deliver parent focused education and interventions Reviews best practices in interviewing about and reporting on child maltreatment Looks at teaching methods learning settings and children s academic social outcomes

The C.A.S.T.L.E. Method Donna Tetreault,2022-06-21 While many parenting strategies focus solely on what affects children the CASTLE Method approaches both parents and children as unique individuals in need of active learning growth love and care because the heart of any castle is the entire family In The C A S T L E Method Dr Phil s resident parenting expert Donna Tetreault provides her professional and personal experience in raising children along with the seven foundational evidence based principles that form the CASTLE Method compassion acceptance security trust love expectations plus education This gentle guide simplifies the parent education dilemma by organizing professional research that can be adapted to any circumstance As you learn the tools you ll need to build a strong foundation you will be empowered to create the best version of yourself your children and your family Your castle will be a place for your children to thrive and feel safe and loved The journey to build your strong family foundation begins now

The Education of Latino Students in Massachusetts Ralph Rivera,Sonia Nieto,1993 Following its rapid growth over the past twenty years the Latino population of Massachusetts is now the largest racial and ethnic minority group in the state It is also one of the poorest During the Massachusetts Miracle of the 1980s the Latino poverty rate in the commonwealth was twice that of blacks and six times that of whites And with Latino children dropping out of school at a rate three times that of white children the economic future of these young adults is bleak indeed Unlike blacks who are concentrated in Boston Latinos are dispersed geographically throughout the state This distribution combined with their limited economic and political power has made Latinos victims of public indifference and neglect This volume and its companion Latino Poverty and Economic Development

in Massachusetts edited by Edwin Melendez and Miren Uriarte are designed to educate policymakers and other concerned individuals about the particular needs of Latinos in Massachusetts They address issues of education and economic development and suggest strategies to facilitate Latino empowerment in ways that preserve ethnic identity language and cultural expression **English for Kindergarten and Grades I-VI** Saint Louis (Mo.). Board of Education,1926 *Play, Learning, and Children's Development* Mariane Hedegaard, Marilyn Fleer,2013-04-22 This book explores the dynamics in children s everyday lives as they move between school and the family with particular consideration of how children s motives change in response new challenges Professors Mariane Hedegaard and Marilyn Fleer follow four children two from Australia and two from Denmark over a twelve month period Using these case studies they show how children s everyday activities play and the demands of both family and educational contexts influence their learning and development The authors contribute to a sociocultural theory formulation that includes the child s perspective in cultural historical contexts Their approach yields insights that transcend specific nationalities cultures and socioeconomic situations The analysis shows not just how children s family life shapes their experiences in school but how schools influence and shape their lives at home
