### **Disturbing Spirits** Beverly A.

Tsacoyianis, 2021-06-15 This book investigates the psychological toll of conflict in the Middle East during the twentieth century including discussion of how spiritual and religious frameworks influence practice and theory The concept of mental health treatment in war torn Middle Eastern nations is painfully understudied In Disturbing Spirits Beverly A Tsacoyianis blends social cultural and medical history research methods with approaches in disability and trauma studies to demonstrate that the history of mental illness in Syria and Lebanon since the 1890s is embedded in disparate but not necessarily mutually exclusive ideas about legitimate healing Tsacoyianis examines the encounters between Western psychiatry and local

practices and argues that the attempt to implement modern cosmopolitan biomedicine for the last 120 years has largely failed in part because of political instability and political traumas and in part because of narrow definitions of modern medicine that excluded spirituality and locally meaningful cultural practices Analyzing hospital records ethnographic data oral history research historical fiction and journalistic nonfiction Tsacoyianis claims that psychiatrists presented mental health treatment to Syrians and Lebanese not only as a way to control or cure mental illness but also as a modernizing worldview to combat popular ideas about jinn based origins of mental illness and to encourage acceptance of psychiatry Treatment devoid of spiritual therapies ultimately delegitimized psychiatry among lower classes Tsacoyianis maintains that tensions between psychiatrists and vernacular healers developed as political transformations devastated collective and individual psyches and disrupted social order Scholars working on healing in the modern Middle East have largely studied either psychiatric or non biomedical healing but rarely their connections to each other or to politics In this groundbreaking work Tsacoyianis connects the discussion of global responsibility to scholarly debates about human suffering and the moral call to caregiving Disturbing Spirits will interest students and scholars of the history of medicine and public health Middle Eastern studies and postcolonial literature

Is individual happiness contingent on health and well-being? How does one find happiness in the throes of illness? In the present-day scenario wherein medical practice is largely dominated by evidence-based understanding, diagnostic language and problem-solving methods, the discipline of Medical Humanities emerges with a reciprocal dialogue between Humanities, Social Sciences, Health and Medicine. The study of varied experiential narratives, literary works and unmediated accounts of patients and healthcare professionals is foregrounded in Medical Humanities to amplify knowledge and understanding about the complexity of encounters with illness and their transformational quality in a nuanced manner. Both thought-provoking and informative, this publication brings about the anecdotal form of personal narratives in the light of medical discourses along with the specific cultural context of the narrative. The present publication seeks to be an important reading for students and academics in the field of medical humanities, health professionals or medical practitioners as well as scholars aspiring to venture into this flourishing field.
