CCSS and ELLs: Common Core State Standards and English Language Learners Estee Lopez,2012-01-01 The Common Core State Standards CCSS pose an exciting challenge for all educators and their students each of whom is expected to meet these standards The CCSS in English Language Arts ELA articulate rigorous grade level expectations focused on higher order thinking processes in the areas of speaking listening reading and writing to prepare all students to be college and career ready To this end this reference guide is designed to increase educators ability to make teaching and learning decisions based on research based best practices for the academic and language achievement of English language learners ELLs It can also serve to initiate professional learning conversations and guide educators to resources that accelerate and improve the teaching and learning of ELL students Motherhood, Childhood, and Parenting in an Age of Education Maryellen Schaub,2023-05-05 Motherhood as a celebrated yet underappreciated role is often thought of as a natural process something instinctive that we refine by watching our own mothers and others in our community We rarely think of motherhood as something that is time and culturally specific yet like culture itself it is socially constructed and both motherhood and childhood evolve over time With the rise in educational attainment of mothers in the American population the expectations associated with childhood increasingly include not just education but cognitive development and

extracurricular activities as the partnership between parents and education intensifies in the joint project of human development of children Motherhood Childhood and Parenting in an Age of Education offers a new way to conceptualize the high demands of contemporary parenthood It traces the emerging narrative about the good mother changes in the underlying assumptions of what constitutes the good mother and the implications for the good childhood as education grows in institutional strength This book demonstrates that education is driving the formation of the parent and child roles in the dominant contemporary culture of the US although alternate models exist Education itself has expanded over time to become our largest social intervention defining behaviors and beliefs such as parental involvement in schooling the unengaged parent and the deficient student

Academic Language in Diverse Classrooms: English Language Arts, Grades K-2 Margo Gottlieb, Gisela Ernst-Slavit, 2013-10 This title offers guidance to educators in how to target academic language in planning for student learning as states undergo the implementation of the Common Core and corresponding English language proficiency standards in preparation for the upcoming consortia led assessments

Real Classroom Makeovers Rebecca Isbell, Rebecca T. Isbell, Pamela Evanshen, 2012 Learning environments are an important topic as more and more teachers try to make their classrooms into places that support and inspire learning

Using before and after pictures of real early childhood classrooms *Real Classroom Makeovers* shows early childhood teachers step by step how small changes can transform their classrooms into wondrous environments for young children to learn and grow With a budget conscious focus the book provides visual examples of dramatic changes that are possible in real preschool Pre K and kindergarten classrooms Most of the makeovers focus on a specific classroom area or learning center Much more than a collection of before and after pictures this book introduces and describes the philosophy behind creative learning environments based on current early childhood education research Written in simple down to earth language this book is accessible for all educators

The Importance of Being Little Erika Christakis, 2016-02-09 Christakis expertly weaves academic research personal experience and anecdotal evidence into her book a bracing and convincing case that early education has reached a point of crisis her book is a rare thing a serious work of research that also happens to be well written and personal engaging and important Washington Post What kids need from grown ups but aren't getting an impassioned plea for educators and parents to put down the worksheets and flash cards ditch the tired craft projects yes you Thanksgiving Handprint Turkey and exotic vocabulary lessons and double down on one simple word play NPR The New York Times bestseller that provides a bold challenge to the conventional wisdom about early childhood with a pragmatic program to encourage parents and teachers to rethink how and where young children learn best by taking the child's eye view of the learning environment To a four year old watching bulldozers at a construction site or chasing butterflies in flight the world is awash with promise Little children come into the world hardwired to learn in virtually any setting and about any matter Yet in today's preschool and kindergarten classrooms learning has been reduced to scripted lessons and suspect metrics that too often undervalue a child's intelligence while overtaxing the child's growing brain These mismatched expectations wreak havoc on the family parents fear that if they choose the wrong program their child won't get into the right college But Yale early childhood expert Erika Christakis says our fears are wildly misplaced Our anxiety about preparing and safeguarding our children's future seems to have reached a fever pitch at a time when ironically science gives us more certainty than ever before that young children are exceptionally strong thinkers In her pathbreaking book Christakis explains what it's like to be a young child in America today in a world designed by and for adults where we have confused schooling with learning She offers real life solutions to real life issues with nuance and direction that takes us far beyond the usual prescriptions for fewer tests more play She looks at children's use of language their artistic expressions the way their imaginations grow and how they build deep emotional bonds to stretch the boundaries of their small worlds Rather than clutter their worlds with more and more stuff sometimes the wisest course for us is to learn how to get out of their way Christakis's message is energizing and reassuring young children are inherently powerful and they and their parents will flourish when we learn new ways of restoring the vital early learning environment to one that is best suited to the littlest learners This bold and pragmatic challenge to the conventional wisdom peels back the mystery of childhood revealing a place that's rich with

possibility Leading the Common Core State Standards Cheryl Dunkle, 2012-05 Many educators agree that we already know how to foster student success so what is keeping common sense from becoming common practice The author provides step by step guidance for overcoming the barriers to adopting the Common Core State Standards CCSS and achieving equity and excellence for all students As an experienced teacher and principal Cheryl Dunkle is well versed in staff members perspectives and gives school leaders valuable tools for fostering the teacher and parent buy in needed to put the CCSS into practice This practical guide shows leaders how to implement the CCSS which will ultimately result in continuous quality improvement in schools Leading the Common Core State Standards addresses the following key issues and more
